Judge Goodrich replies this morning to the statement of Mayor Haines, Comptroller Ward and Alderman Long. His letter will be found on the second page.

Bishop of Minnesota

Rev. Henry B. Whipple, of this city, Rector of the Church of the Holy Communion, has just been elected Bishop of Minnesota by an Episcopal Convention at St. Paul. Mr. Whipple's energy, devotion and success in building up a Free Church in this city, warrant us in saying that Minnesota has chosen the very best man for her wants.

Celebration at Sandwich.

At Sandwich, on the Chicago, Burlington & Quincy Railroad, the 4th of July was celebrated with great spirit. The whole country turned out in gay holiday attire, and everything passed off in capital style. There were three bands in attendance—Cline's from Aurora, one from Newark, and a third belonged to Sandwich. The Sandwich Glee Club sang several patriotic pieces with good effect. The Declaration of Independence was read by Dr. Ballou, and the Oration was by a nameless individual who is said sometimes to have perpetrated a "*spoke*." The dinner was good, after which the afternoon was filled up with patriotic sentiments, speeches and music. Fire-works were to close an excellent celebration in the evening.

CHICAGO PRODUCE TRADE.

The receipts of produce during the past week were:—13,831 bbls flour; 55,884 bu. wheat 136,001 bu. corn; 9,750 bu. oats; 710 bu. rye; 5,060 bu. barley.

The shipments during the same period were; —12,000 bbls flour; 54,891 bu. wheat; 74,926 bu. corn; 23,512 bu. oats; 96 bu. rye; 40 bu. barley.

The total receipts and shipment since 1st January, compared with the same last year, are as follows:

	Receipts.		Shipments.	
	1859.	1858.	1859.	1858.
Flour, brls	204,080	223,493	171,571	182,333
Wheat, bu	1,439,852	4,993,991	1,007,379	[illegible]
Corn, bu	2,613,717	3,044,155	1,565,064	2,376,251
Oats, bu	337,320	1,242,438	207,070	956,506
Rye, bu	25,584	25,850	2,562	7,869
Barley, bu	119,296	164,950	49,441	60,894

The following table shows the flour and grain in store in this city, on the 2d inst., compared with the amount in store at the same period in 1857 and 1858:

	July 2. 1859.	July 3. 1858.
Flour, brls	7,874	8,452
Wheat, Spring, bu	250,584	721,181
" Red, bu	23,899	6,282
" White, bu	1,033	900
Corn, bu	472,121	483,078
Oats, bu	116,881	112,185
Rye, bu	[illegible]	1,916
Barley, bu	19,332	14,784

Flour during the week has been dull and drooping. Wheat has been less active, and prices have not changed materially. Corn has been firm, and advanced during the week 3@4c but the advance has been nearly lost during the past two days. Oats have been quiet and unchanged. Nothing doing in cereals. Provisions inactive. Wool advanced 2c, with receipts of over 36,000 lbs during the week.

How Our City got so badly in Debt.

One of the capitalists invited to the Mayor's private office for consultation on Thursday, made the following statement:

The Council last year appropriated thirty-two thousand dollars for street purposes.

After this appropriation was made, the Mayor made up his mind that he would be a candidate for re-election. It became necessary for him to have a large number of laborers kept in the city through the winter. He accordingly expended ninety-eight thousand dollars for street service, being sixty-six thousand dollars more than was appropriated by the city.

Here, then, was a floating debt contracted of sixty-six thousand dollars, without the order of the Council or any one else.—*Democrat.*

Two months ago, (April 30,) Wentworth published a similar statement, which we promptly exposed and refuted. He prefaced his charge then with the words: "We have heard" &c.—He now says that a "capitalist made the following statement, &c. His own fertile imagination is the only "capitalist," that told him so.

But as some readers may have forgotten what we said on a previous occasion, it may not be amiss to restate it.

The amount appropriated by the Council during the past year for street work, exclusive of the street tax, was $39,000. The amount expended under the appropriation was $30,276,86.—That is to say, the expenditures for street labor were $8,723,14 cents *less* than the sum appropriated by the Council for that purpose. How does this *fact* tally with Wentworth's lying statement, that there was $66,000 more spent than appropriated?

But to give some coloring of truth to his falsehood, Wentworth included the street tax that requires citizens to work three days on the streets or pay $1,50 in commutation. He also included $9,218,84 of a balance due for improving Dearborn Park—an expense by the way created by himself. He also includes $3,000 for filling Washington Park,—another expenditure bequeathed by himself to Haines. He also includes all the money expended for the purchase of lumber, stone, spike and other material for keeping the paved, planked and macadamized streets in repair. He also includes paving, macadamizing, and repairing streets paid for by *special assessment* upon the property benefitted, to the amount of some $15,000, and from these sources constructs his charge that the "Mayor has contracted a debt of $66,000 without the order of the Council." He might as well have included the $60,000 which he left Haines to pay for improving the Court House and grounds. Wentworth brags that he attends church regularly. He has a singular way of practicing the preaching he hears against lying and bearing false witness.

The Injunction Case—Resolutions of the 7th Ward Republican Club.

At a regular meeting of the Republican 7th Ward Club, held Saturday, July 2d, a committee of five, viz: Messrs. Jacob Williams, A. C. Hessing, Herman Hirschfeld, Conrad Folz and Anthony Fischer, was appointed and instructed to publish resolutions in regard to the present financial affairs of the city. The committee adopted the following:

WHEREAS, An injunction has been issued by Judge Wilson of the Superior Court, preventing the city administration from anticipating the collection of this municipal year;

And whereas, by such injunction, the city and its credit have been placed in a perilous and distressing condition, and the officers, policemen and street laborers threatened with stoppage of all payment of wages or even have been thrown out of employment; and whereas, men who profess to be Republicans try to fasten the responsibility of this calamity upon the administration of Mayor Haines, be it

Resolved, That we fully exculpate the present Mayor from this charge, and that we have now the same confidence in him as ever.

Resolved, That we say nothing against the decision of Judge Wilson, whom we believe sincere and led by honest motives, but that we consider this whole injunction movement as entirely uncalled for at this time, as it is only calculated to throw serious difficulties in the way of administering the city government, and as there is not the least sign of official extravagence visible, which could justify such an extraordinary remedy.

Resolved, That we look upon the man alike with astonishment and anger, who, when himself administering the city, made use of the same temporary loans in order to carry on the administration before the taxes were due, and that we can see nothing but selfish ambition and a criminal indifference in regard to the interests of the laborer, in his attempt at destroying the credit of the city and the confidence of the people in this Republican administration.

Resolved, That it is the duty of every Republican in this crisis to sustain the present administration in raising means for carrying on the city government, be it by borrowing money on short terms, or by taxing the property at such rate as to do away with the floating debt of two hundred and thirty-three thousand one hundred and eighteen dollars ($233,118 00) which was left by the preceding administration to the present, without leaving any assets to pay it with.

Resolved, That we deem the policy of raising the revenues of the city, by taxing vice in an irregular manner, not at all tending to suppress it, but relying upon its existence as a financial resource is entirely unworthy of any honest and moral administration, really doing more to demoralize the people than all the money derived from such filthy sources ever could do towards reforming their morals.

Resolved, That we call upon the city government to lay a clear and popular statement of the financial affairs of the city before the people, in order that all misunderstandings and prejudices may be done away with, and everybody may see, that, under the present circumstances, the present administration had to take the course of action, which, but for the decision of Judge Wilson, would have really served the best interest of the tax payer, as well as the laborer in the employ of the city, and elsewhere.

Astronomical Meteorology.

Editors Press and Tribune:

The terms Thermal and Penumbral are used to designate opposite conditions or elements of the weather. The first will be understood to designate warmth; the second is cool or cloudy or both, and sometimes foul.

Your readers will see, by this time, that I am not infallible. Another man, with the same elements, might be more successful in the exercise of judgment. An oversight, like the omission to forsee and predict a sudden change like that of Saturday evening, could never occur after my system had become so completely arranged as to present the problems of those days whose meteorological elements are similar, in the same catalogue. The predictions however for Sunday, Monday and Tuesday, July 3d, 4th and 5th, contain some expressions that are quite significant, and which were strikingly verified. Thus Sunday morning "absence of intense solar action" "affected with elements which tend to produce wind and cloud"—"Sunday P. M. hotter than the A. M." Monday A. M. correct, except the showers which were only stated as possible. The thermal influence from which the hot P. M. was predicated proved a little too remote for effect. Tuesday's elements were stated as new. Those who, in different parts of the country, have for any length of time been acquainted with this system, and have been cognizant of our statements through the season will perceive that the cold announced in your issue of the 1st, as likely to prevail and predominate as a *permanent* element, until about the 10th of July, still holds on, although warm days occasionally occur, being due to other and more transient causes. The intense solars, occurring at certain hours of the day and in certain longitudes, are another distinct class of influences, still more transient. But it is still, as in the days of Diogenes and Franklin. The kingdom of Heaven can be entered only through much tribulation; and science, which, next to religion, is the highest boon from Heaven to man, is still destined to "rough it" through the night, in the streets of populous cities, beneath the shelter of an inverted tub, or sugar hogshead, and travel the streets by day, like Franklin, with a penny roll under each arm, and a bunch of radishes in hand; or, like Columbus, to travel from city to city in quest of patronage. Yet, take heart, pilgrim, and be loyal; for glorious indeed, and pregnant with joy, the mission to bear a new and priceless treasure from Heaven unto man.

Wednesday, A. M., fair and cool or cold, noon a little foul, probably overruled by the usual mid-day heat. P. M. fair, with intense solar action; wind, however, probably quite cool, perhaps cold. Thursday, morning early and through A. M. windy, ranging from westerly to southwesterly and southerly, and Morning fair and hot. A. M. may become cloudy or remain hot and sultry. Noon to midnight, benins fair and ends foul. A sudden change near mid-day, with showers, seems justified by the figures. P. M. cooler than the early A. M. The intense focal action takes place early in the morning, unless the upper current be east. Thursday morning, warm with south-westerly wind, whether fair or foul. F. L. CAPEN.

Chicago, Tuesday P. M., July 5, 1859.

Statement of the Captain of Police.

Editors Press and Tribune:

Having observed a series of articles in the Chicago *Democrat*, charging that orders have been given to the police of the city of Chicago not to arrest certain classes of offenders against the city ordinances, I deem it my duty to state publicly that all such statements are entirely false. No such orders have ever been given to the policemen either during this or the last administration; but, on the contrary, I have always been directed by Mayor Haines, and have myself directed the policemen, to see all laws of the city properly enforced, and in no instance has a proper complaint been made and process obtained against an offender without an effort on my part to bring such offenders to justice. Gamblers, and keepers of houses of ill-fame are arrested and prosecuted as promptly as any other class of offenders; but as both are secret offences and the city has no one employed to go into these places and practice these vices in order to obtain proofs; this class of offences are not so prominently brought before the public as when the spy policy prevailed under Wentworth. I was last year Capt. of Police under Mayor Haines. In 1857 I was first Lieutenant of the West Division under Wentworth, and had charge of the principal arrests of gamblers made during that year, and I am satisfied that during no time within the last three years has the city been so free from gamblers, burglars, pickpockets, incendiaries and robbers, as during the last two months of the present year. JOHN M. KENNEDY,
Capt. of Police.

The Next Great Battle.

[By the steamer Vanderbilt.]

The expected battle on the Mincio is the topic which now engrosses universal attention. The *Nord* of June 21st says:

"We are on the eve of great events. The two armies are face to face. All the corps of the Austrian army are concentrating upon the line of the Mincio. The provinces of the empire have been denuded of troops, and the last columns are arriving by forced marches upon the scene of the contest. The Austrian army has chosen its position; it occupies a line on the other side of the Chiese, the center of which rests upon the heights of Castiglione, before Peschiera; the right wing extends to Lonato; the left to Castel-Goffredo. On the 17th the Emperor Francis Joseph reviewed the two *corps d'armée* encamped at Lonato.

The allied armies follow the enemy step by step, combining their movements. It is possible that the pivot of their operations will be the bourg of Monte Chiaro, evacuated precipitately by the Austrian rear guard. A French corps is advancing by forced marches in the Valtelline, where the Austrians made a feint of descending from Formio to threaten the rear of the allied armies.

The ground chosen by the Austrians for accepting battle has been well studied by their generals; these positions served habitually for the grand manœuvres of the autumn. The latter fact is not ignored at the French head quarters, and precautions have been taken accordingly.

The game, then, will be played with equal chances—a terrible game—without precedent in the military history of modern times."

The *Nord* also says:

"The day before yesterday Prince Napoleon was to enter Modena. By this time military operations have commenced in the Adriatic upon the coasts of Dalmatia. It is stated that the Austrians, while the French army marches to the Mincio, wish to direct a body of 50,000 men by the Tyrol upon Milan, but it is not very likely that the Austrian Generals will try one of those bold manœuvres to which they are so little accustomed. In any case, precautions have been taken."

Correspondence of the London Times.

PARIS, Monday, June 20—6, P. M.

We are in daily expectation of news of a battle on the Mincio—a great battle, which, if lost by the Austrians, may hasten the solution of the great question at issue, and dissipate the delusion that they can continue to hold Lombardy as before. The famous fortresses will, we are told, not long stand out against the rifled cannon; at least, such is the opinion expressed by persons who, were not their national feelings enlisted, would be very good authority on such a question. Should a battle, then, be lost by the Austrians on the Minico, it is thought or hoped that the Neutral Powers may try to bring about an armistice, with a view to an ulterior arrangement. There are various versions, or rather conjectures, as to the nature of this arrangement. One is that Austria will be induced to abandon her claims to Lombardy, which will be annexed to Piedmont, and that Venice will be declared a free city, with a portion of territory as far as the limits of Lombardy. In this manner the North of Italy would be rescued from the Austrians from the Mediterranean to the Adriatic. There are various other plans spoken of, perhaps with no greater foundation. The attention of everybody is fixed on the expected battle of the Minico—the Minico, which is regarded as the Rubicon of the modern Cæsar.

[From the Paris Siecle, June 13th.]

"From Peschiera to Mantua the course of the Mincio is about six leagues as the crow flies; in that limited space the passage must be forced. To attempt this operation there are certain points naturally indicated by their position. In fact, the principal condition to secure the *débouche* of any bridge thrown over a river is to drive the enemy away from the opposite bank. It is not difficult to imagine that if a spot is found in the course of the river where, on the one hand, the stream forms an angle towards the attacking party, and, on the other, the ground is high enough to command the bank occupied by the enemy, it would be a great advantage to attempt the passage at such a point, because a plunging fire could then be concentrated on the enemy placed in the middle of a semi-circle of batteries. Now, the course of the Mincio presents to an army wishing to force its passage, from the Milan side, only two points combining these advantages—at Mozambano and Volta. On these two points the stream makes an elbow, pointing to the west, and the ground on the right bank is considerably higher than on the other. These two points were therefore chosen in the wars of the Revolution, in 1796 and 1800, and also in the campaign of 1848, to force the passage of the Mincio. Moreover, the possession of two fortresses like Peschiera and Mantua, on so short a line, renders its defence easier, for the enemy have their wings perfectly supported, and can debouch unexpectedly from either of those fortresses. However, history teaches us that for an army well commanded the passage of the Mincio is almost a certainty. The Austrians could not prevent Bonaparte from crossing it in 1796; nor Brune in 1800 notwithstanding the sanguinary battle fought by Bellegarde—nor the Piedmontese army in 1848, which forced the river at three points—at Goeto, Mozambano and Borghetto. The passage once effected, the conquerors are in the centre of the quadrelateral, and of the places which form its four corners—Peschiera, Mantua, Lenago and Verona—and being so will have most probably to fight a pitched battle to force the enemy back.

IMPERIAL MOVEMENTS.

[From the Brussels Nord.]

We have reason to contradict the reports which have been current relative to the approaching return of the Emperor to Paris. We understand that such a thing has never been thought of. His Majesty is actively occupied with the plans of the new campaign and the concentration of the troops. In a few days the blanks in all the regiments will have been filled up. Prince Napoleon, whose attention has been up to the present time absorbed by the organization of the Fifth *corps d'armee* under his command, is impatient to distinguish himself in the second series of operations which are about to commence.

VIEWS OF THE NEW MINISTERS.

Lord John Russell, the new Foreign Secretary, has issued an address to the electors of London, the pith of which is contained in the two following paragraphs:

The grave responsibility which I have incurred by accepting the appointment of Secretary of State for Foreign Affairs in the present critical state of Europe can only be lightened by the very general assent of the nation to the course of honorable neutrality, which her Majesty's advisers are determined to pursue.

The question of further amendments in the laws regulating the representation of the people in Parliament will be undertaken with a view to strengthen our institutions and place them on a broader and stronger foundation.

THE CITY.

Pay Up or Close Up.

There are eight to ten hundred places where liquor is sold in this city. There are from three to five hundred billiard tabels, and there are some scores of ten pin alleys, and half a dozen intelligence offices. All these must pay certain specified sums for license. Where liquor is sold the license is $52. Each billiard table must pay $5 per month, or it may be commuted by paying in advance $25 for a year. The same penalty is charged upon ten pin alleys; and $52 a year is the license for intelligence offices.

The first of July is the time fixed by law for paying these licenses and penalties. Some have renewed their licenses, but the majority have not yet paid their dues. It is made the duty of the Marshal and police to report the delinquents, and each one in arrears, subjects himself to prosecution, fine and and costs. The city treasury is empty, and the government is hard up for money. Since the injunction was issued it must look chiefly to these sources for means to keep the wheels in motion. Time cannot be granted. Liquor sellers must pay up or shut up. Licenses must be promptly paid or the shops must be closed. It is unjust to those who have paid, that others should be allowed to hold back. Let all be treated alike. Pay up and save costs, or close up and save prosecutions. The law must be enforced. The runners, draymen, hackmen, expressmen and baggage drivers, all paid their licenses in the spring, and paid promptly and without grumbling. Let all in arrears "step up to the Captain's office and settle."

DEAD.—Henry Beucker, one of the three men who fell a few days since from a scaffold at Sturgis' new building, corner of Cass and Huron streets, expired on Monday last.

DROWNED AT KALAMAZOO.—We learn says the Detroit *Tribune* of Saturday last, from a gentleman just from Kalamazoo, that a Mr. Chandler, a resident of Chicago, and a man of wealth, who was temporarily visiting there, was drowned in the river while bathing, Thursday, together with a nephew aged 10 years, named Denison.

BURGLARIES.—On Sunday night, the store of Graff & Hoyt, 63 Dearborn street, was entered and robbed of about $100 worth of goods.

On Saturday night, the house of H. Rice, No. 474 Halsted street, was entered by burglars and a pair of pants taken.

On the same night, the house of T. M. Bradley, a deputy sheriff, 418 West Madison street, was entered and $100 worth of Property carried off. This is Mr. B.'s third visit from the villains.

Same night, the residence of Dr. W. W. Egleston, No. 217 State street, was entered, and a coat, vest, pants and watch stolen.

FIRST SALE OF NEW WHEAT THIS SEASON.—Yesterday Geo. R. Eckley, Esq., commission merchant, received the first car load of new Winter wheat sent to this market this season. It was grown in Perry county in this State, and was shipped by Messrs. Maberly & Son, Du Quoin. The quality was very fine, it being plump and dry, and it weighed 60 lbs to the measured bushel. The purchasers were Messrs. Gage & Heart millers, who paid for it $1.52 on track.

☞ Wentworth asserts in his paper that Mayor Haines is paying a boy named Volney Hickox $12 a week out of the city treasury, as a detective, and that Comptroller Ward knows him to be a minor, but still pays him! There is no such person on the police or detective force, nor does he draw a cent from the city treasury, directly or indirectly. We have the authority of the Comptroller for pronouncing the statement in the *Democrat* a point blank falsehood.

RETURNED.—Our fellow citizen, Joseph Pollak, Esq., arrived home from Vienna, yesterday, after an absence of two months. He was in Vienna five days, and left that city on the 2d of June, the same day that the Emperor Francis Joseph started for Milan. Mr. Pollak reports every kind of business stagnant in Vienna. The people attribute the repeated reverses of the Austrian arms in Lombardy to the incompetency of Gen. Gyulai, and are confident of better things under the command of Gen. Hess. Mr. Pollak informs us that he had no difficulty whatever in passing through Austria under his American passport.

MODEST VERY.—The editor of the *Democrat* writes about very little else than *himself*. He is exceedingly polite to the editor of that sheet. In almost every article he speaks of himself as "Mr. Wentworth," "Col. Wentworth," "Mayor Wentworth," and the other day he went so far as to draw a flattering comparison between himself and Gen. Jackson. To all his other manifold virtues he adds that of excessive *modesty* and diffidence. We expect next to see him address himself as his "Excellency Wentworth," and wind up with a parallel between John Wentworth and George Washington.

ANOTHER SCAFFOLD ACCIDENT—MAN KILLED.—On Tuesday at about noon a frightful accident occurred at the corner of State and Monroe streets. A swinging scaffold upon the new building of C. P. Albee's, gave way, precipitating three painters to the ground. One of them named Cobb, died a few minutes after being taken home. His widow says he never spoke after he was brought in. He leaves three children, the eldest of which is three years old.—Another named Patrick Fitzgerald, and another whose name we cannot find, escaped with bad flesh bruises and sprained limbs. The distance from the scaffold to the ground was about thirty feet and the accident occurred from a rotten rope. All the painters live near the corner of Chicago Avenue and Dearborn street.

SARATOGA.—Our fashionables who contemplate a sojourn at the Springs this season, should glance at the announcement of the "Union Hall," which appears in another column of to-day's impression. From all that we can learn relative to such matters, Saratoga will be the "Rialto" of the fashionable world this season, and we should not be surprised if it surpassed in brilliancy any former occasion. We see by the papers that the various hotels are rapidly filling up with pleasure seekers, but as the proprietors of the "Union Hall" have made such extensive alterations and additions to their premises they will be enabled to accommodate an unusual number. We consider the "Union" the hotel, par-excellence, of Saratoga.

Grand Fourth of July Celebration at Lafayette, Ind.

CAMP TIPPECANOE.

The pretty and prosperous city of Lafayette, Ind., never contained on any one occasion so many visitors from abroad as it did on last Monday, the eighty-third anniversary of American Independence, and never before in its history presented so interesting an external appearance, or so inviting a programme to those who delight in celebrating the occasion with the established order of things, to wit: the reading of the Declaration, poem, oration, military displays and fireworks. Never to our recollection have these drawn together before so large a concourse of persons in any of the towns of the Wabash Valley as that of Monday last. The crowd was estimated at from 10,000 to 15,000 persons.

The expressed intention of many military companies to encamp on the Battle ground of Tippecanoe first caused the people of Lafayette to think of some means whereby the encampment and the Fourth of July celebration might be worked up together into a sort of American Carnival, but the memorable field of Harrison's victory was seven miles north of the city, and as it could not be conveniently brought within the city limits, the enterprising men of Lafayette decided to offer a handsome subscription to the Militia to forego the Battle ground, and hold their encampment in a lovely grove adjacent to the Round House of the Toledo, Wabash and Western R. R., about half a mile from the centre of the city. The Military accepted the offer, which amounted to $3,000, came down to Lafayette, pitched their tents in Stockton's Grove, and in order to show that they did not entirely ignored the historical holy-ground, they paid to it a flying visit on Friday last, the day of their arrival, and when they came home dubbed their ground "Camp Tippecanoe."

Five hundred Military men and their friends, it may be judged, would put the limited hotel accomodations of Lafayette to a severe test, but when on Saturday and on Sunday, hundreds came pouring in, there was no chance even for meals, much less sleeping accommodations. On Monday morning the brimming city was overflowed by the arrival of immense trains over the Toledo, W. & W. R. R., Lafayette and Indianapolis, and New Albany and Salem Railroads. Several trains over the first of these lines consisted of from 24 to 30 car loads of passengers,—not ordinary passenger cars alone, but freight cars fitted up with rough benches, and gravel cars adorned with rows of seats, brought their thousands to the scene.

The hotels understood the art of dealing with formidable crowds, and stationed policemen at their doors to see that no one was admitted unless he had a ticket, which he had to purchase at the office before presenting himself. No policemen, were, however, stationed to see that the guests got their dinners, and many had their tickets for meals left—the only thing they could feed upon. The little shops did a tearing business, and lemonade, almost made without the aid of lemon, and pies with durable crusts were devoured by an eager community with ferocious appetite. But very, very few of the stores were closed during the day, on the contrary were crowded with customers from morn to eve. The stereotyped mode of shutting up shop was generally abandoned, and the "Fourth" was the busiest day for trade seen in that locality for many years. Yet everybody seemed pleased and satisfied, and the celebration passed off harmoniously and well.

A large number partook of the water from the Artesian Well, which is eligibly situated in the Court House Square, beneath a very pretty iron pavilion. It tastes quite as disagreeable as any believer in the medicinal properties of water would desire it, while its qualities and flavor are said to be very much like those of the Blue Lick Water. Not a few invalids are here already to test its recuperative powers, and many, it is believed, will come when the water becomes better known. Beside this, there are bathing rooms supplied with the Artesian well water, which are extensively patronized, with beneficial effect by strangers and citizens. The water was found at a depth of 200 feet.

Some of the buildings were tastefully decorated, among which we noticed the *Courier* office, the front was covered with emblems. We take the proprietor of that journal to be up to the time for he took advantage of the influx to scatter his advertisements over the walls of the city. The State Bank is a handsome stone structure in the New York bank style, and we noticed that many new and fine stores are erecting at this time.

The tents, covering an area of four acres, presented a picturesque appearance, pitched as they were on a hillside, peeping out between tall and majestic trees, that lent a charming and refreshing shade to the spot, while the military went through their evolutions and the bands played to the delight of an immense concourse of persons—the ground was all that could be desired. The encampment embraced the following companies:

Citizen Guards, Louisville, Captain Buckner.
Marion Rifles, Louisville, Captain Woodruff.
Montgomery Guards, Crawfordsville, Captain Wallace.
Waynesfield Guards, Maumee City, Ohio, Captain Robertson.
Wabash Guards, Wabash, Captain Parrish.
German Teutonic Rifles, Peru, Captain Kloener.
National Blues, Louisville, Captain Hawley.
Reyburn Guards, Peru, Captain Reyburn.
Springfield Cadets, Springfield, Illinois, Lieut. Crosman commanding.
Lafayette Guards, Lafayette, Captain Fonda.
Toledo Gunners.
Tippecanoe Gunners.

The number of men was about 500. Captain Buckner, of the Louisville Guards, was commandant.

Upon arriving at the ground we inquired for the Chicago Light Guard, but they were not there, and their absence seemed to be regretted by others than the citizens of Chicago in attendance.

At daylight, a national salute of one hundred guns, and a federal salute of thirty-three guns were fired by the Toledo gun and the Tippecanoe, the new piece belonging to the Tippecanoe gunners. In the course of the forenoon there was a grand civil and military procession through the town; the citizens and visitors were under the direction of Hon. H. W. Ellsworth, Grand Marshal, and the military under the officer in command. At about one o'clock the party returned to the camp, when the exercises commenced by overtures by the Band, followed by prayer by Rev. Dr. White, of Crawfordsville, reading of the Declaration of Independence, Original Ode, by W. W. Fosdick, Esq., of Cincindati. The subject was the theme of the day, it elicited considerable applause and is a very respectable composition. Subsequent to which the Marshal introduced Hon. Thomas Corwin, stating, however, that he was much prostrated. The orator's appearance was greeted with applause by an immense audience, seated on rude benches in the grove and on the stage, which was crowded.

Mr. C. opened by stating that his health would not permit him to make a long speech, as he was in great pain. Mr. Corwin's health improved as he progressed in his speech, which was very interesting in many parts. The main argument of it was devoted to showing by illustration from scriptural, contemporaneous and recent history, that no nation unworthy of liberty could maintain its freedom. The speaker showed that man would not obey the laws of man, unless he knew or believed they were ordered by God; thus the Priesthood had got all their mandates obeyed through making man believe such were the will and wish of the Almighty; in this way the holy oil had been used and the Divine right of kings became the belief of men. Mr. C. then sketched the protest of Luther against the infallibility of the Pope, the progress of religious light—he showed how that a new and brighter era had followed his dissent, and traced from this denial of the Pope's infallibility a declaration of independence which threw up the idea of the divine right of kings, and illustrated the progress of man in the science of government, how all this led to the glorious action of 1776, which established mankind as free and equal, and created every man from a serf to a Sovereign and an Emperor in himself. Mr. C. said that this was oft told them by demagogues, but he said it was in that spirit as they would soon hear. He asked Gov. Willard, good-naturedly, who was on the stand, whether such was not the language of the demagogues. This provoked a laugh; Gov. W. replied that he believed it was; he had heard it in 1840. The happiness of this retort produced much merriment. The speaker then proceeded to define the duties of citizens to themselves and to the State. He said if the liberties of the nation were ever lost, the people must blame themselves and not lay it on the shoulders of corrupt politicians. In his argument showing the decline of nations from their own corruption and inertness, he referred to Italy, where the Cornelias and the Lucretias had descended into ballet girls, and the Cæsar's into Paganini's; where one brave Roman (Garibaldi) was fighting with a few Italians at his back, and depending on the arms of that power, France, which was once one of great Rome's dependencies. He hoped if Napoleon crushed the nation he now befriended, he would meet the fate of Nebuchadnezzar, and be turned out to grass.

He proceeded to argue his theory of Nations great and powerful bringing about their own downfall, with many happy illustrations from the Assyrian, Babylonian, Persian and Egyptian eras. The speaker then came down to modern times and spoke of home politics. He maintained the Constitution was plain upon the Fugitive Slave law, and scouted all new interpretations. He loved the Union and was bitter upon all who were Abolitionists, while he assigned to them deaths more ridiculous than that in the last scene in "Il Trovatore." He denied that the Supreme Court of the United States had ever made a decision which decided that a man might take his slaves into a territory and hold them there. He claimed that Congress had a right to prohibit slavery in the Territories, that Calhoun had never denied that such prohibition was constitutionally vested in Congress. The speaker denounced the re-opening of the slave trade. So far as the politics of the day, it was one of those speeches which are best understood by the term of Castle Garden oration or Union-saving speeches. The speech was listened to with attention, and cheered frequently at pointed remarks and at the conclusion.

There was at 5 o'clock P. M., a grand and brilliant military parade at the parade grounds, lying northwest of the Camp, where the entire military, in full costume, were reviewed and addressed by Gov. Willard, attended by full staffs and many distinguished guests.

At 8 o'clock there was a magnificent display of fire works, firing of cannon, and band and martial music, upon Hon. A. S. White's Hill, in the south-east part of the city, and situate a little north of the house of M. Iterson, Esq.

At 9 o'clock, commenced the grand festival at the Valley Round House, brilliantly lighted up with a thousand burners. A beautiful platform was erected in the centre of the house for the orchestra, and the entire hall appropriately decorated. There was dancing by a large assemblage until an early hour of the morning, when the military withdrew to join the trains upon which they returned to their homes. Everything passed off with but few if any accidents or serious difficulties. It is almost impossible to collect so many people together without there being some little trouble; there were many who tried to force the line of the guards around the camp. One fellow cut a member of Lafayette Co., over the wrist, another party tried to get in but was repulsed and broke up two Minnie rifles. One man who was engaged in this mean business received a bayonet wound in the shoulder, another was shot in the mouth and several of his teeth knocked out, and a third got "pepper" in the eye. The soldiers were condemned for having their weapons loaded with powder. The former placed under arrest by their officers. A member of the Wabash Guard while on duty was spoken to by one of the National Guard, when the former leveled his rifle and shot him in the eye, badly injuring that organ and disfiguring his face with powder.

On Sunday there were interesting religious exercises, at which it was said three Chicago thieves were picking pockets and arrested by a Chicago detective, all of which, from close inquiry may be set down as bycbole.

INDEPENDENCE DAY.

How it was Celebrated in the City and Vicinity.

INCIDENTS, ACCIDENTS, &C.

The Eighty-third Anniversary of American Independence passed off almost according to the programme published in our paper of the 4th inst., and in the absence of any public demonstration, the city was remarkably quiet, although full of pleasure seekers.

The military companies were out and made a very creditable display. Early in the morning the Cadets received the guests of the day, the Milwaukee Cadets, who brought along with them their cannon, the Young America, which kept up a series of salutes in front of the Tremont House. Their soldier-like bearing and drill pleased all who saw them.

The military feature of the day was the drill of the Chicago Cadets. This fine corps, under the instruction of Major Ellsworth, have acquired extraordinary skill and proficiency in company evolutions; and when in Lake street opposite the Tremont and subsequently in Lake Shore Park. They gave public evidence of their discipline and activity. The thousands of lookers-on heartily and repeatedly applauded their feats. Without doubt the Cadets are the crack corps of the city. Since with the wisdom that the older companies would do well to imitate, they have made strict temperance and morality conditions of membership, and their opposite the cause of expulsion they have progressed with great rapidity. With them, soldiering is the means at once of social enjoyment and physical education. Their rapid and difficult evolutions and their soldierly appearance, show how wise they have been in steering clear of the rocks upon which many a fine company has been broken up. As long as their present rule, which forbids the wearing of their uniform in any drinking house or disreputable place is upheld, and as long as they are wise enough to see that the advantages of exercise and drill may be wasted by nights of carousal, they will deserve the encouragement which all who witnessed their evolutions on the 4th are willing to extend to them. We but echo the general opinion when we say that the Cadets cannot be surpassed this side of West Point.

The Milwaukee Cadets were handsomely entertained at the rooms of our Cadets with fine collations and choice refreshments. They returned to their homes at 10 o'clock yesterday A. M.

The Turners *turned* out with full ranks. There was a boat race out on the Lake, between the W. H. Darling and Stella, which resulted in favor of the former.

At Cottage Grove it is estimated there were 20,000 to 25,000 persons.

At Lake Forest there was some 100 persons enjoying themselves in a quiet way in small parties of four and five each.

At 9 o'clock over 1,000 persons, friends and members of the South Presbyterian Church, left for Oak Forest. On their way they were greeted with music and cheers at Blue Island. When at Forest they had a glorious time with refreshments, base ball, reading the Declaration, &c.

At Hyde Park there was a large number of persons engaged in pic-nics, including the Irish companies. There was a thrilling boat adventure in which four ladies, two South Water street W's, a dry goods merchant with a B. for an initial, and a fashionable tailor E. all of whom proved they were nice men but bad sailors, got awfully wet by the tipping of their boat. Taber, Hawk & Co.'s new hotel entertained a large number of persons.

At Evanston there were some 4,000 to 5,000 persons assembled. There was a Sabbath School celebration very interesting in its character. After which there were speeches by gentlemen from Chicago and Waukegan.

At Wakegan a large number of citizens enjoyed themselves amid the beautiful groves with which that vicinity abounds.

The excursion of Rev. Mr. Edwards was a pleasant one. It included some 400 or 500 little ones, who enjoyed a lake trip on board the McQueen.

FIRES.—The alarm at ten o'clock A. M. was caused by the burning of a small woodshed at the corner of Superior and North Clark streets. Loss trifling.

ABOUT nine o'clock same evening, another alarm was created by the burning of the hat store, No. 188 Randolph street, kept by Paulo Adsmi. The stock was valued at $4,000 and insured for $2,000. It was mostly destroyed. The building was owned by Chas. Stose, valued at $500, insured for $300. The fire caught from a rocket which entered an open sky-light.

A FIRE broke out on Monday evening, July 4th, at about eleven o'clock, in the lumber yard of Carter & Brother, cor. Peyton and Ohio streets, on the North Branch. The engines were promptly on hand, and the fire was extinguished with small damage. The owners were fully insured. The fire was unquestionably the work of incendiaries.

AT about 10 o'clock A. M., an unoccupied two story house belonging to Rebuen Cleveland, situate on Wayman street was burnt. Its value was about $800. It was set in four different places, and was too far gone to be saved by the fire engines.

THE steam engine *Island Queen* fell into a ditch on Desplains street near Kinzie, and sustained external injuries which will cost about $60 to repair. One of her horses has been disabled, by his leg coming in contact with the fallen engine.

ON Monday evening, in the Theatre Saloon, on Madison street, Mr. Robert Fergus, printer, and Mr. Thomas Ayres, were enjoying a friendly skylark among some friends, when the latter by accident let slip his hold and the former fell with his whole weight against the corner of the counter, causing a fearful wound in his forehead and rendering him insensible for some hours. Fortunately the skull was not fractured, and yesterday Mr. F. was much better.

A boy named Casliner Fulbourne, living on Milwaukee avenue, shot himself through the arm with a pistol which he was carelessly loading. The arm was amputated.

Henry Biglow, a member of Moore's Merchant's Police, while firing a gun, shattered his hand by its explosion. Dr. Max Myers dressed the wound.

A FRACAS occurred among some members of the Washington Independent Regiment near Division street, which finally resulted in a serious fight, which was only quelled by the police after a long struggle. John Beck, P. O. Vanderstein and A. Wied, members of the cavelry, were arrested, and gave bail.

A BLACKSMITH living on Blue Island Avenue got into a quarrel at Bridgeport, during which he was stabbed in the back. Two men named Hugh Larmin and Michael Dunn were arrested for the offence.

ON Monday, a man named Stewart Hamilton, living at 172 Monroe street, about 71 years old, and a well known Methodist City Missionary, while stepping from the horse cars on State street, fell and broke his thigh bone. He stepped from them without ringing the bell and missed his footing. It is probable that he will always be crippled.

ON Monday evening, a desperate fight occurred at Cottage Grove. It seems that some three or four rowdies attempted to enter a tent, where a man had pictures for exhibition, without paying. The man very properly tried to stop them, when they forced their way in and attacked a third party inside, dealing him a terrible blow with a bludgeon, which cut a gash in his head and fractured his skull. We are unable to learn his name, but he is a german.

MEN DROWNED.—We regret to learn of the accidental drowning of R. H. Bacon, Esq., connected with the *Times*, who fell overboard from the Salvor on Monday, while on a trip to Waukegan. It seems that he was sitting on the side of the boat on the upper-deck, and some one running against him, he was precipitated into the lake. The alarm was immediately given; a settee, life-preserver and planks were thrown to his assistance, the engine reversed, and a small boat sent to his rescue. But all proved unavailing. He is supposed to have become chilled by the water and sunk before assistance could reach him.

Deceased came from near Boston, was about 37 years of age, a graduate of Hamilton College, N. Y., and educated for the ministry. He was eccentric, but a fine scholar and wrote under the name of Old Hunker, for the Boston *Post*. He has also written extensively for the Knickerbocker Magazine.

After all the efforts to rescue him or to recover his body had failed, a meeting of those on the boat was held, when Arthur C. Ducat was elected chairman, and a committee of five appointed to draft resolutions expressive of the sense of the meeting. The following resolutions were read and unanimously adopted by the passengers:

STEAM TUG SALVOR, July 4th, 1859.

We, the undersigned committee, appointed by the passengers on board the steam tug Salvor to report in regard to the accidental drowning of R. H. Bacon, Esq., beg leave to report the following:

Resolved, That we deeply sympathize with the family and friends of the deceased.

Resolved, That in our opinion the occurrence was purely accidental, and that great praise is due to Capt. Somerville, the crew and passengers, for the extraordinary efforts that were made to save the life of the unfortunate gentleman.

Resolved, That the Chicago and Boston papers be requested to publish these resolutions.

S. K. REED,
M. S. SANFORD,
FRANCIS ROWE,
CHARLES F. FRIZELL,
EDWARD F. EVEREST,
Committee.

A MAN named Cavanaugh, who keeps a soloon in this city, jumped ashore from the steamer Weoona on Monday night at about 11 o'clock, and was lost. At the close of a dance some one cried out in sport "all ashore," by which Cavanaugh, who was in liquor, thought he was to get off the vessel and he jumped out and fell into the water. A sailor saw him and grabbed the skirt of his coat, but it came off in his hand. The man went to Cavanaugh's wife, who was on board, and showed her the remnant of the garment.

Mr. D. T. HALE, the furniture dealer, of North Canal street, and a friend who was with him in a buggy at Hyde Park, were beset by some rascals and severely beaten. Mr. Hale was knocked senseless, and severely injured by a slung shot, and his friend was also badly beaten. Their assailants then whipped their horses and fled. The cause of the affray was that Mr. H.'s whip and flags were stolen by the fellows, and in going to recover them, they were brutally assailed and assaulted.

HOME FOR THE FRIENDLESS.—The regular monthly meeting of the Board of Managers, will be held at the Home this (Wednesday) afternoon, at 3 o'clock.

☞ Dr. Hostetter's justly celebrated and never failing Stomach Bitters will effectually cure all diseases of the body of a morbid nature. The Doctor in calling the attention of the public to this valuable specific does so with a feeling of the utmost confidence in its virtues and adaptation to the diseases for which it is recommended. It is no quack article, but one that has stood the criticism of the American press and people. The testimony given in its favor by the most eminent and well known professors and private individuals in all parts of the United States is immense, and clearly evinces that its virtues are many. The use of the "Bitters" cannot but satisfy the skeptical that it is really deserving the celebrity it has obtained wherever sold. For sale by Druggists and dealers generally everywhere. jy6-2w

MORTGAGE SALE.—Default having been made in the payment of three promissory notes, made and executed by Thomas C. Boyington and William S. McWilliams, payable to the order of James & Springer, all dated the nineteenth day of April, A. D. 1858, and due respectively on the first day of May, 1859, 1860 and 1861, amounting in the aggregate to the sum of Twenty-Five Hundred Dollars with interest, which said notes were secured by a certain indenture by way of mortgage executed by the said Thomas C. Boyington and William S. McWilliams to the said Josiah L. James and George A. Springer, dated the said 19th day of April, A. D. 1858, in which it was stipulated that if default should be made in the payment of said notes, or either of them, on the days whereon, the same should respectively become due and payable, that then the whole sum secured by said notes, should thereafter, at the option of the said James & Springer, the parties of the second part in said mortgage become immediately due and payable. Notice is, therefore, hereby given that by virtue of a power of sale in said mortgage contained, the undersigned mortgagees, will, on Tuesday, the twenty-sixth day of July, A. D. 1859, at 10 o'clock A. M., at the north front door of the Court House, in the city of Chicago, County of Cook, State of Illinois, proceed to sell at public auction, to the highest bidder for cash in hand the premises described in said mortgage, and thereby mortgaged with power of sale, to secure said debt, and all costs and expenses incident thereto, viz: Lots One, Two, Three and Four, in Block No. Twenty-Two, in the South Branch Addition to Chicago, in the Subdivision of said Block, as recorded in the Recorder's Office of Cook County, in the State of Illinois, and all the right and equity of redemption of the said Thomas C. Boyington and William S. McWilliams, said mortgage is recorded in Book 37 of Mortgages, Page 562.

WEDNESDAY, JULY 6, 1859.

PROFESSIONS vs. PRACTICE.

Wentworth says, in his paper, that he is going to "preach from the text, that that government is *best* which is most *economically administered*." If he does, he will show that his administration was the worst one that ever existed in Chicago. He was full of professions and promises, and ended with broken pledges. He talked about "retrenchment," but he never practiced it. A few facts will show what kind of economy characterised his administration:

I. The heaviest per cent. of taxation (17 mills) ever levied upon the property of Chicago, was levied by Wentworth.

II. There was more money collected from licenses than ever before, as he himself claims.

III. There was more money collected from fines and penalties than ever before, as Wentworth knows.

What did he do with all this revenue? He said he paid off the "floating debt" with it; but he told a falsehood. He did no such thing. He turned over upon Haines $181,905.63 of *debt*, and an empty treasury besides. He left nearly as much floating debt as he found. What did he do with all the money that came into his hands? We can tell where some of it went. He kept thirty to forty more policemen than were needed. He paid them 25 per cent more than they now get. He kept extra clerks in all the departments. He paid all the office holders from 20 to 40 per cent. more than they receive at present. He paid Wm. Justice, Bridewell Keeper, nearly double what he now gets from the city. He spent large sums on such fellows as Brown the Beast. He paid nearly twice as much for doing the same amount of work on the streets and for dredging, bridge-building, and other public improvements, as equivalent services now cost the city. Not unfrequently he would direct his police to commit outrages upon citizens, and after becoming wiser he would get the matter compromised and hushed up, and pay the damages out of the city treasury. In several instances large damages were obtained against the city by persons who received personal injury from falling into pits in the streets, that he had neglected to have covered. The city was beaten in most of its suits, because he refused to employ legal assistance—the time of the City Attorney being consumed in the Police Courts.

To sum up; he squeezed out of the people an unprecedented amount of money, and spent it with a reckless prodigality. He did not *steal*, but he *wasted*. When he was "sweating" the public he made them believe he was doing it to pay off the floating debt; but he went out of office leaving it unpaid behind him. His administration had lived too fast.—He kept the city in a continual uproar, under the pretense of "enforcing *all* the laws." Now and then he would dig up some obsolete ordinance and fine citizens for the breach of it—"blow" about it in his paper, and then discontinue its enforcement thereafter. One day he would haul down the signs, and another day maltreat the draymen.

At last he rendered himself so odious and intolerable that the boys hooted and hissed him whenever he appeared on the streets, and when his year happily expired, he dared not to hint that he desired a re-election, but stepped out of the office infamous and discontented.

A LAND SLIDE IN THE NORTH-EAST.

The action of the Democracy of Maine in dividing their delegation to Charleston equally between Douglas and the Administration, and nominating a Lecomptonite for Governor, is a bitter pill for the friends of the Illinois Senator. It is justly held that if Mr. Douglas cannot carry the New England delegations as a unit, his prospects for the Presidential nomination are not worth talking about. The entire vote of the Northern States in the Charleston Convention would not be sufficient to give him the nomination under the tyranny of the "two-thirds rule." If it appear then that the North is to be divided, while the South is welded together in unity against Mr. Douglas' pretensions, a panic among that gentleman's retainers may be expected at an early day. The Maine example will prove infectious. Not more than one man in ten among the managing spirits of the Democracy—those who manipulate the wires and turn up as delegates in Conventions—is presumed to believe conscientiously in anything but the spoils. On the questions of squatter sovereignty, Dred Scott, Congressional slave code, etc., the large majority are confirmed infidels. They will shout for whichever seems most likely to pay cash. While one man is clamoring for principles, the other nine are going zealously for consulships and post-offices. As panics overtake the camp followers before infecting the regular army, so does a movement like this in Maine set the nerves of the politicians in a quiver before its effect is noticed in the rank and file. We doubt not that the land slide in that State will cost Mr. Douglas the services of an efficient army of blowers and strikers, who, true to their instincts, will make haste to desert him and fight under some standard which promises better rations.

Mr. Douglas has lost a moral power in the South also, by his defeat in Maine. There would be something imposing and formidable in the appearance of an undivided North in the Charleston Convention. Hot-headed and desperate as the Southern delegates are sure to be they would think twice before intrenching themselves behind the two-thirds rule and thus thwarting the wishes of a clear majority of their own party. In such a contingency they could not restrain the more prudent of their own men from stampeding to the squatter sovereignty camp. But as the ball has opened it is clear that Mr. Douglas' prospects for the nomination are no better than they were in 1852 and 1856. In the Cincinnati Convention his highest vote was 121—these mainly from the South. If he musters 100 delegates at Charleston they must come from States where his friends have more vitality than they exhibit among the "down-easters.

THE LATE DISASTER.

A few of our Eastern exchanges are exceedingly severe upon the Michigan Southern Railroad Company for the faulty engineering which caused the terrible destruction of life in the great disaster, a week ago. We are not inclined to defend that Company for any of its short-comings; but we insist that the error with which it is charged in connection with this matter, is one of which nine-tenths of the railroads of the country are guilty, if, indeed, it is not the great error of the American railroad system; and that the accident is one that might have occurred on any line in the United States. The fault is in the demands of the people for cheap and long-extended lines of communication; in the intense desire to be brought by rail into connection with markets and all the outside world—no matter how, nor upon what risk to life and limb. This is the root of the evil; and the accidents which are of almost daily occurrence are the fruit. It is unjust, then, to the Company immediately concerned to make it the scape-goat for the sins of a system which all Companies have adopted. If no other road had ever lost a culvert by the undermining of floods, the vials of public wrath might be properly opened upon the luckless engineer who built the culvert, on the Michigan Southern Road, which washed out. But accidents of the sort are of common occurrence on all Western, and we doubt not on all Eastern Roads. The peculiarity of this accident is that there happened to be a train passing at the moment when the structure was about to give way, otherwise it does not differ from dozens of others that have happened within our knowledge, in the West, during the current year. The lamentable loss of life makes the fault neither greater nor less. It has the effect only to turn upon that road and that corporation the batteries which ought long ago to have been opened upon the crazy system upon which all American railroads are built.

As long as cars run upon these roads as now constructed, so long shall we be obliged from time to time to chronicle great disasters by which scores of men, women and children are crushed into the next world. The newspaper press will, as now, after every slaughter, treat its readers to vigorous diatribes on the criminal carelessness of officers and employees; but there will be no reform until the people are willing to forego the obvious advantages of railroad communication until the towns and the country through which lines pass are populous enough and well enough cultivated to yield a well built road a handsome support. When that will be, let our western readers judge.

WENTWORTH'S FINANCIAL MANAGEMENT.

Wentworth devotes a column and a half of his last Sunday issue to apologizing for his financial mismanagement while Mayor. He says the charter clearly forbids the borrowing of more than $100,000 in any one year. But he totally failed to explain how it happened that his administration *borrowed* $180,000 and gave short bonds therefor, and why he issued $100,000 of long bonds besides, finally selling $4,000 of them, and adding that amount to the debt of the city. Here we find him borrowing $80,000 more than he says the charter allowed him, and trying to borrow on long bonds $100,000 more, in order to "tax posterity," to use his own favorite expression.

It is notorious, that after the issue of the bonds was permitted by the Council, Wentworth was in such indecent haste to throw them upon the New York market, that he worked all the clerks in the Comptroller's office to get them filled up before the train started East, and then sent the Comptroller off in such a hurry that he was not permitted to see his family before leaving. When Mr. Ward got to New York he found such a panic in the stock market that he did not offer them for sale, but brought them home with him, to await the subsidence of the panic. But when the money market had improved, and Eastern parties were offering to take Chicago bonds at par, Wentworth seized upon them and unlawfully burned them, and fraudulently turned over upon Haines $181,905.63 of concealed floating debt drawing usurious rates of interest. These little facts and circumstances the public should not lose sight of when Long John is whitewashing his past financial conduct.

The Minnesota Row-de-dow.

Gov. Gorman's late exposure of the Minnesota election frauds, whereby Sibley became the Governor of the State, and Rice and Shields members of the U. S. Senate, has made an astonishing flurry among the politicians and office-holders at St. Paul. The *Pioneer* of that city is particularly savage on Gorman, and endeavors to dragoon him into an acknowledgment either that he told a lie to the editor of the Chatfield *Republican*, or that the editor told one in publishing his statements. At the same time it admits that if Rice & Co., did perpetrate the fraud alleged by Gorman, they should be provided at once with apartments in the penitentiary at Stillwater.

California Politics.

The Republican State Convention of California met at Sacramento on the 1st of June and made the following nominations:

For Governor—Leland Stanford, of Sacramento. Lieut. Governor—J. F. Kennedy, of Santa Clara. Judge of Supreme Court—O. L. Shafter, of San Francisco. Clerk of the Supreme Court—S. D. Parker, of Trinity. Treasurer—Philip P. Caine, of Butte. Comptroller—J. R. Clarke, of El Dorado. Superintendent of Public Instruction—S. W. Brown, of Sonoma. Surveyor General—A. G. Randall, of Amador. Attorney General—H. S. Love, of San Francisco. For Congress—P. H. Sibley, of Placer; Col. E. D. Baker, of San Francisco.

Resolutions were adopted declaring the Republicans of California opposed, as formerly, to the introduction of slavery into the free territories; that they repudiate the dogma that slavery exists in all the territories by virtue of the constitution; that the corruption of the federal administration demand the sternest rebuke which can be administered by a free people; that they are in favor of a Homestead Law, and are opposed to any unjust discrimination against naturalized citizens.

Lead Ore in Dupage County.

A citizen of Wheatland, Dupage county, sends us a specimen of very pure "mineral" or lead ore, broken from a lump weighing twenty-five pounds, which was recently brought to light by a plow on his farm. We trust this discovery may not give rise to a mining fever in little Dupage in the midst of the harvesting season. The specimen before us was doubtless deposited with the drift formation; and its presence no more indicates the existence of a vein of lead in Wheatland, than the discovery of a boulder would assure the proximity of a granite quarry.

Wentworth and Judd.

[From the Oquawka Plaindealer.]

Wentworth, some how or other, always manages to get himself into trouble, and unless he is sorely misrepresented, deserves to be closely watched. He appears to have adopted the "rule, or ruin" policy, of all that class of men, who unless the party will serve their personal interests, and nominate their personal friends, will use their utmost endeavors to break up the party, and defeat its regular nominees by all means, fair or foul. Wentworth has lately commenced an attack on N. B. Judd, one of our best, purest and ablest Republicans, whose public services in behalf of Republicanism during the last term of our Legislature, are still fresh in the grateful memories of those who love the cause of the people and rejoice at the defeat of the Democratic bill intended forever to defeat the popular will of the people of this State. There may be private and local causes influencing Wentworth to some extent; but he is unfit for his position, and unworthy of his former reputation, if he has not magnanimity enough to bury his personal feelings, and labor for the sole good of the cause he professes to uphold.

Politics at the State Capital.

The Springfield correspondent of the St. Louis *Democrat* writes:

Douglas stock in Springfield is low—not much in the market. It is true, "the faithful few," whose business it is to laud the Little Giant, are still following their trade, but many who were once his admirers, now think the less said of him the better. The National Democratic party begin to show signs of life. While the Douglas organ in this city—the *State Register*—is apparently drooping, the Nationals will commence the publication of a new daily this week. It will be published by Messrs. Clarkson, Kreigh & Russel. The editorial department will be in the hands of James J. Clarkson, Esq., who has edited, with some ability, for some months, the *Weekly State Democrat*. The daily is to be called *The Daily Illinois State Democrat*. Mr. Buchanan has given the new paper some Postoffice advertising, which will serve as pap for the youngster during its infancy.

Theodore Parker in Paris.

Mr. Bigelow of the N. Y. *Evening Post*, writing that paper from Paris under date of June 16th says:

Theodore Parker, with his family, arrived here on Sunday, not materially benefitted by his trip to the West Indies. His lungs have been examined by Louis, the great authority here on diseases of the chest, and their condition is found to correspond substantially with the diagnosis made by his physicians in Boston. One lung is pretty much destroyed. He goes to Neufchatel, in Switzerland, where he will be the guest of Desor, a Swiss naturalist, who may be remembered as the companion of Agassiz, when he first came to the United States. He was then poor. Since, by the decease of his brother, he has come into the possession of a handsome fortune, and now lives as much *en prince* as a savant can in the mountains of republican Switzerland. He has promised to geologize, bottanize, or philosophize with his sick friend, as he may desire, and Mr. Parker's friends here anticipate for him great things from the trip, in which I pray that they may not be disappointed.

Papal Nuncios and the War—The Doctrine of the Catholic Church.

[From the Freemans Journal.]

The *Moniteur* of Paris contradicts the story that the Nuncio at Vienna, took an active part in the public exercises in the Cathedral of the Austrian capital, asking of God success for the Austrian arms. To have done so would have been a serious departure from that position of neutrality, taken by the Pope, and most fitting the Vicar of the Prince of Peace. The bishops of Austria and of France, respectively, ask God to bless the arms of their compatriots. This is all right. The opposite course would be strange, and would show an unhappy estrangement of the clergy, from the body of the nations to which they belong.

Self-Propelling Steam Fire Engine.

PHILADELPHIA, July 3.—The self-propelling steam fire engine, built at the Novelty Works, New York, by Messrs. Lee & Larned, for the Southwork Hose Company of this city, reached the company's house at 8 o'clock this evening, having propelled itself over the turnpike road from Bristol, a distance of over 20 miles. The actual running time was in two hours; total time 5 hours and 34 minutes, including all stoppages; highest speed at the rate of 16 miles per hour; weight of engine 9,000 lbs.; weight of fuel, water and nine men, 3,000 lbs. Several steep hills were ascended without the slightest difficulty at the rate of ten miles per hour.

The Injunction Case—Notes from Judges Goodrich and Higgins.

Editors Press and Tribune:

A communication in your paper of yesterday morning signed by the Mayor, Alderman Long, and Comptroller Ward, seems to demand from me a statement of the facts alluded to, and what was the opinion actually given them by Chief Justice Wilson and myself.

It is true the gentlemen named did call on us, and stated the financial embarrassments of the city. They called our attention to the provisions of the charter limiting the rate of taxation and prohibiting the right to borrow and issue bonds in any one year for a greater sum than one hundred thousand dollars. They desired to know if the city had any power to loan money to meet the matured and maturing indebtedness of the city and its accruing expenses. They especially desired to know whether they might not this year issue bonds to the amount of three hundred thousand dollars, inasmuch as no permanent loan had been made within the three preceding years. They further stated that indebtedness pressing the city had been contracted under previous administrations, and had been carried along on what they called short bonds.

After examining the subject we gave them this distinct opinion; that they could make no loan, and issue no bonds for that purpose, in any one year for a sum exceeding one hundred thousand dollars, whether that amount had or had not been loaned in any preceeding year.

We further advised them, that in our opinion if time, or short bonds had matured, which the city had not the means to meet they might procure the extension of the time of payment of such bonds, and might issue to the holders thereof, in extension and lieu thereof, other bonds. In other words, that the extension, or renewal of the existing debt was not a loan within the meaning of the prohibition of the charter. *But we distinctly and emphatically told them, that in our opinion, they could not, for the purpose of paying off existing indebtedness, nor, for any other purpose, loan money by the issue of bonds in any one year exceeding in amount one hundred thousand dollars.* We further advised them that if the bonds had been transferred, the new bonds must be issued to the holders.

Judge Wilson went so far as to indicate the form of the order necessary to steer clear of the difficulty. The undersigned fearing what has occurred, met the Comptroller some days after, and requsted to have the order submitted to the inspection of Judge Wilson before it should be passed.

It is clear that money borrowed, would be the creation of new indebtedness. It would go into the treasury, and when there be subject to the control and appropriation of the Council for any purpose. Its actual application to the purpose of payment of an existing debt, could in no way change the character of the transaction.

We *may have* Common Councils who will under pretence of a loan to pay debts, issue any amount of bonds, and then appropriate the money to such purposes, honest or dishonest, as they shall see fit. But no such mischief can follow from a new extension of the credit, because then the new indebtedness can only be devoted to the purpose intended—it is good for no other purpose—it can be applied to no other. And if a case could be made within the prohibition of the charter, the one made by the bill and answer in the case before Judge Wilson, was such a case. The bill charged and the answer admitted, that within the present year over $250,000 had been borrowed and bonds issued therefor, and that the city was about to borrow one hundred thousand dollars more; and issue bonds therefor. Can that *common sense*, which is so earnestly invoked, fail to see, that to have denied the injunction, would have been a license to a limitless issue of city bonds?—a precedent, which would have subjected the entire property within the city to be charged, by the folly or dishonesty of any future corrupt administration, to any amount its cormorant appetite might crave? The unambiguous language of the charter, common sense, and common safety demanded the action of the court.

However desirous the court might have been to meet the wishes of the city government, they could not do it.

The law has no power, by legal fiction, to transform the names and essence of things, to meet even the exigencies of States or cities—to disregard or abrogate the plain mandates of the law-making power. It would be better they should become bankrupt, than that the judiciary should be guilty of such a dangerous usurpation.

The gentlemen, as stated in their communication, did desire us further to consider the question. What question? If we had given the opinion they say they understood us to have given, there was no further question to consider. As we understood, they wished us further to consider whether they could issue bonds to loan money to take up existing indebtedness—that which, in our opinion, they could not do.

We did further consider that point, and consulted Judge Higgins on that and all the other questions submitted to us. He fully concurred in the conclusions to which we had arrived.

If we were misunderstood, or the Council obtained other opinions more consonant with their views, and chose not to adopt the precautions we suggested, we cannot subvert the law to extricate them from their dilemma.

The correctness of our opinions will not be questioned by any unbiased lawyer. He will readily comprehend the difference between the extension of an existing debt, and the creation of a new indebtedness, though the money thus obtained may be applied to the payment of the old indebtedness. The books furnish numerous cases in which this distinction is recognized, and in decisions made by men wiser than we are. And it would seem that the *common sense* of men ought, at first blush to comprehend it.

I have nothing to say in vindication of the opinion given by these gentlemen, or of that delivered in the case by Chief Justice Wilson, in every legal conclusion of which I fully concur. When the law is clear and mandatory, courts have nothing to do with consequences. They have no power to make laws, to repeal or modify statutes. Their duty is to administer the law, and enforce statutes as they find them. If they are wrong, the legislative department of the government alone can alter or repeal them. Statutes relating to corporations are to be strictly construed. Limits to their powers cannot be disregarded. They have no inherent powers—they are all derived and permissive, and must find their sanction in the express grant of the Legislature, or be absolutely necessary to carry into effect the powers specifically given. For courts, by construction, or otherwise, to attempt to confer powers upon corporations, or to abrogate or diregard legislative inhibitions, would be a most dangerous assumption of authority, destructive of all individual and political rights, and subversive of the whole system of government. If it has been expected of us, for any purpose whatever, those who have indulged such expectation, will most certainly be doomed to disappointment.

July 4, 1859. GRANT GOODRICH.

Judges Wilson and Goodrich consulted me in regard to the foregoing matters and I fully concurred with them. We thought the city might renew an indebtedness by giving other evidences of indebtedness for the old debt, as in such case no money passes or is received by the city, and there could be no misapplication of the funds. But that if they borrowed the money, then it would go into the City Treasury as city money, and might be misapplied—as the Council could then appropriate it to any purpose, while in the case of a renewal of the debt there would be no money subject to their order. They would merely give a new bond for an old one, and the city officers were so advised as I understood it. VAN. H. HIGGINS.

St. Louis, Alton and Chicago Railroad

[From the Illinois State Journal.]

It will be seen from the following notice, which is published in the New York *Eve. Post*, that the creditors of that Company are going to work in earnest to try to make something out of this road:

NOTICE.—The subscribers, (creditors of the Chicago, Alton and St. Louis Railroad Company,) having been incorporated by the general assembly of the State of Connecticut, at its session in May, 1859, under the name and style of the "Chicago, Alton and St. Louis Railroad Company," for the purpose mentioned in the act of incorporation and having been by said general assembly authorized to organize said corporation, hereby (to that end) give notice that we will open the books for subscription to the capital stock of said corporation, at the Tontine Hotel, in the city of New Haven, on Thursday the 14th day of July, 1859, at 10 o'clock, A. M., in accordance with the provisions of said act of incorporation.

Due notice will hereafter be given of the "manner and form" as well as of the "terms and conditions" on which such subscriptions will be received.

Copies of said act of incorporation may be had on application to Nathan Peck, Esq., New Haven, or N. A. Cowdrey, 29 William street, New York.

DENNIS KIMBERLY, LEVERET CANDEE,
NATHAN PECK, JNO. W. MANSFIELD,
N. A. COWDREY, A. NANN, Jr.
CHARLES CONGDON.

It is now understood (says the Alton *Democrat*,) that a very large proportion of all the bondholders and other creditors will avail themselves of the advantages of this charter, and capitalize their claims under it. Then, soon as the company is fully organized, negotiations with Gov. Matteson to get possession of the road in such a way and manner as will be satisfactory to all the local creditors along the line.

It is presumed that those making the subscriptions in bonds or other claims against the company, will be required to pay a small per cent. in cash, so as to enable the new company to pay off the arrears of pay now due to the employees of the present management, which now amount to some $140,000 or $150,000.

Probably Fatal Illness of Secretary Floyd.

A Washington Correspondent of the St. Louis *Republican* says:

"I regret to report the continued ill health of Secretary Floyd, who is now sojourning at the Military Asylum, near this city. His late trip to Virginia seems to have had but little effect upon his disease, and his friends are seriously apprehensive he will not recover. A member of the Cabinet, who visited Gov. Floyd yesterday, in the country, expresses the opinion that his disease will probably terminate fatally. His family are anxious for him to retire from the Cabinet, and he may do so at an early day should his residence in the country not produce a change for the better."

Pikes Peak Gold in Philadelphia.

Three distinct lots of veritable gold from Pike's Peak were shown to us this morning, by Messrs. Drexel & Co., to whom they had been consigned by a western banking house. The precious metal was contained in druggists' vials, each holding a dose that would not be hard to take. Most of it was in flakes considerably larger than a pin's head. There were, however, some nuggets of half an inch or more in diameter. The value and the purity have not yet been ascertained.—*Philadelphia Bulletin.*

CROP ITEMS.

MINNESOTA.

FARIBAULT, Rice Co., June 30.

Editors Press and Tribune:

I am happy to state to your numerous readers that the June frosts, which your correspondents mostly speak of, have done us no serious injury. It cut down the corn in some low places, and vegetation is generally backward; but the prospects for an abundant crop throughout the State never were better. In this vicinity there has been nearly double the breadth sown from last year. Young men who have been sitting about our towns for the last two years, waiting for corner lots to rise in value, have commenced tilling the soil.

I am confident that in two years the people of Central Minnesota will be calling loudly for some railroad facilities to carry off their surplus. Last year, in anticipation of this we voted (perhaps foolishly) for a loan of State credit to the amount of five million, which as yet we have failed to effect. Give us our railroads, and we can face the music to the tune of five millions with a better grace than Illinois has her sixteen million debt. With a population composed mostly of young men from northern latitudes, in fact the very offspring of the best enterprise and intelligence in the world, combined with our healthy climate and rich soil, we soon expect to stand as a fair competitor with our sister Western States. A SUBSCRIBER.

WINNEBAGO COUNTY.

ROCKFORD, July 3d, 1859.

Editors Press and Tribune:

In old Winnebago County the wheat is generally very thin on the ground and short in the straw, but the heads are of good size. I think it safe to say that three-fourths of a crop of wheat will be had. The amount of land sown to wheat in this county is not near so much as last year. Barley generally looks well and will make an average crop. Oats were not sown so generally as in former years, and are short and thin, and must necessarily be a light crop. Of course a much larger quantity was planted than I have ever seen, and the stand is much better than an average. The frost hurt the plant by putting it back two to three weeks. The industry and energy of the farmers are commendable; they have their fields clean from grass and weeds, and the corn is coming forward fast, and a large crop is expected. Winter Wheat but little sown, and generally killed. Fall Rye one-half to three-quarters of a crop.

Yours truly, N. G. REA.

DU PAGE COUNTY.

NAPERVILLE, Ill., June 28th, 1859.

Editors Press and Tribune:

The prospects of crops are thus far good, promising an abundant harvest, especially spring grain, which looks first-rate, although some pieces are pretty thin, but may yield an average crop. Fall grain is, I suppose, an entire failure. I have seen but very little. I do not suppose there are fifty acres in Du Page County. Corn looks as well as can be expected, especially that which was planted late, as the frost did not affect that at all; but that which was three or four inches high was cut to the ground, and some fields did not again recruit. So that some farmers thought best to sow buckwheat instead of tilling the ground with little or no prospects of pay. Grass looks fine, and in a few days farmers will begin to make hay; and in a few weeks we expect to begin to reap the golden grain. We have had very cool weather this spring so far, but it is warmer to-day, and hope it will continue so, and we may yet expect a fair yield of everything necessary to sustain life—enough to feed the armies of the East and have a couple of bushels left to take to market, and with that subscribe for the PRESS AND TRIBUNE. Yours, DAVID GIVLER.

DOUGLAS COUNTY.

TUSCOLA, July 1st, 1859.

Editors Press and Tribune:

The harvesting has just commenced in this vicinity. Wheat is first rate. By Monday about all will do to cut. Every thing is doing finely; Corn growing faster than I ever saw it before. Hungarian Grass is well up and promises finely. There is no rust on the wheat, nor any cheat of any account that I have heard of.

They are using on Mr. McCarty's farm, Haines' Harvester, manufactured at Pekin. He has four in operation, each cutting and stacking from twenty to twenty-five acres per day. He thinks they are the best in use, especially for large crops. He has nearly 1,500 acres, and most of it is in prime condition. Weather warm and clear.

Yours, I. J. H.

LA SALLE COUNTY.

MENDOTA, July 4, 1859.

Editors Press and Tribune:

We had another frost last night: but it has probably done very little damage to the crops in this vicinity.

SPECTATOR.

WISCONSIN.

ELKHART, Wis., June 30th.

Editors Press & Tribune:

We have had a few glorious showers within a few days, just in time to save our Spring crops. Winter wheat is injured more or less in this section by an open winter, and grass will be very light this coming harvest. F. D. S.

SAINT LOUIS, July 2, 1859.

In passing from Chicago to this place, I noticed the condition of the wheat, oats and corn growing along the line of the Chicago, Alton and St. Louis Railroad, and I can assure you I never saw a better prospect. Below Springfield harvest will commence Monday. The wheat is particularly good. I noticed a few fields that had been harvested in the vicinity of Brighton and Shipman, eleven and eighteen miles above Alton, and I never saw shocks stand thicker or heavier. Some fields I noticed in which the stalks are thinner, make up for the deficiency of blades by the extra size of the heads which are one-third to one-half larger than where the straw is thicker. The oats are first-rate, and the corn generally ditto. Some few fields are rather backward, but a favorable season will bring them all out. The quality of the new wheat coming into this market is very superior, being sound, plump and very dry. In St. Clair and Madison Counties the yield was never larger or better than this year. The same can be said of Egypt and Southern Missouri, as far as heard from. In haste,

Yours truly, J. O. M.

MERCER COUNTY.

Everything about our growing crops appears very promising, and if nothing befalls them, we are certain that they will be much more than average. There is some complaint that wheat is thin, but if rust and insects do not destroy it, we are confident that it will generally be very good. Corn is small, but the stand is excellent, and it is growing finely.—*Aledo Record.*

JACKSON COUNTY.

We hear good accounts of the crops in Jackson county. Wheat turned out well, corn is doing remarkably well, and fruit promises finely. Little wheat has yet been sent to market, but in a few days buyers will be able to procure full supplies.—*Cairo Gazette.*

LAWRENCE COUNTY.

We observed in the Auditor's office, yesterday, a sample of wheat from the farm of Col. Dubois, in Lawrence county, which was remarkably fine, even for Southern Illinois. The kernels are very large and plump, and the size of the heads betoken a yield that will make the farmer's heart glad. Many of the fields, in that section of the State, will produce full 40 bushels to the acre of the very best quality of grain.—*State Journal.*

SCOTT COUNTY.

The Winchester *Chronicle* says that the wheat crop of this county will turn out better than was anticipated some time ago. Harvesting has already commenced, and the wheat is of a most superior quality. The corn crop is also coming on finely. The farmers are much encouraged.

THE FARM AND GARDEN.

Cottage Hill—A Cherry Orchard—Fine Residences—Ornamented Grounds, etc.

[Correspondence of the Press and Tribune.]

Cottage Hill is sixteen miles west of the city on the Galena Railroad. It is located on the dividing ridge between the River Des Plaines and Salt Creek. The soil is a clay loam, in most parts resting on an impervious clay subsoil, and on the west slope of the ridge the upper strata of the "Niagara Group" of limestone crops out, while this rock underlying the ridge and so near the surface in many places, must account for the fertility of the soil, and its adaptation to gardening and fruit-growing. Wherever this shale-like lime is near the surface, we have observed better crops of wheat, healthier fruit trees, and consequently more fruit. Many of our old citizens will recollect the peach and apple orchard of the brothers Torode, on Salt Creek, which for several years produced large crops of fruit, but of late years have suffered by the hard seasons, as well as by neglect. This orchard was on this limestone shale. At this point the rock dips to the north, cropping out at Bennett's Grove, a little to the southeast of Cottage Hill, and disappearing under the clay subsoil towards Dunckleе's Grove, and the drift gravel to the northwest, to be again presented on the Fox River. In the selection of orchard sites too little attention has been paid to these geological features of the soil. Fruit trees like a limestone soil, or one formed from the disintegration of this rock. Even in the northwestern part of the State orchards standing on the cliff limestone soil, with proper shelter have done well.

At Cottage Hill, this limestone shale, or rather thin layers of rock, have been disintegrated, and thereby formed a most excellent soil, much superior for fruit culture to the common prairie loam, which lies to the north and east of it. For a long time it was a matter of surprise to us, that the lower lands lying along Salt Creek and about Cottage Hill, should prove superior to similar appearing lands to the north, and most of it more rolling, and with better drainage; but so soon as these out-crops of lime presented themselves from under the mass of decaying vegetable matter, the mystery was solved. But enough of this at present.

We had seen a statement in the *Prairie Farmer* that Mr. J. W. Wakeman had grown about four hundred bushels of cherries this season. Being somewhat familiar with his orchard until within the past two years, we determined to feast our eyes, at least, on this, to the West, rather unusual show of pomonal products. With this view we visited his place on Friday last, and were gratified with the sight of hundreds of cherry trees, bending beneath their loads of fruit. A portion of the fruit is ripe, and several loads have been marketed, the price ranging from $4 to $5 per bushel from the wagon. The principal variety is called by Mr. W., "Early Richmond," but this is evidently an error, or it is a sub-variety of that name, and known throughout Ohio, Indiana, and Central Illinois, as the "Early May," with which we think it identical. We have fruited it for several years, and find it a constant and abundant bearer. The tree is perfectly hardy, at least we have never seen it injured in the past hard winters, that swept from our grounds the entire list of Heart and Bigerean cherries. It is a cooking cherry, of a deep, rich red color, and when fully ripe, very good for the table; at least in the absence of the finer sorts. It should be in every garden and orchard, from Cairo to Lake Superior. The oldest tree in Mr. W.'s grounds is some nine years old, from the graft on a stalk one inch in diameter grafted four feet from the ground, having been transplanted the previous season; it has borne eight crops and is now six inches in diameter, and contains, at least, four bushels of fruit, worth not less than $16. Deduct one-fourth for picking and marketing, and a respectable profit is left. Mr. W. has one orchard of 500 trees, which has been set four years, that will average half a bushel to a tree. They are three to four inches in diameter, and are grafted on the common Morrello stock four to five feet high. The stalks are very hardy; they are set in the nursery or orchard one year and then grafted, and the following year they almost invariably produce fruit. Mr. W. has an avenue of these trees six years set out, which at this time are highly ornamental.

OTHER CHERRIES.

Cleveland Bigereau has fruited in Mr. W.'s grounds the past four years, and now has on a full crop, but the trees do not look healthy and will prove short-lived. Kirtland's Mary, Gov. Wood, Ohio Beauty, Bigereau de Mai, and May Duke, are all in fruit, but the trees are not healthy.

PROTECTION AND SOIL.

This orchard is sixteen feet each way, is protected on the north-west by a grove of locust, and slopes to the south-east—clay loam soil, eighteen to twenty inches deep, resting on a clay subsoil, the whole evidently partaking of the shale before noted.

Mr. W. will make clear profit of not less than $1,000 on the cherry orchard this season, and this, too, in the midst of farmers who pay so little attention to fruit growing that they have not a supply for family use. To encourage the timid and the unbelieving we have penned this note, and hope they will be benefitted thereby.

APPLES.

Mr. W. has an apple orchard of seventy acres, a portion of it is about ten years set. The older portion of it was set with trees from Rochester and Buffalo, but they have not given good satisfaction, while trees grafted from them have done well and proved hardy; it is probably the effect of high culture in the nursery, and the check on resetting has retarded them, that disease followed, the trees becoming rotten at the heart. This should teach us to avoid those trees that have so rapid a growth by the use of stimulating manures in the nursery. The crop of apples will be light, at the same time some few varieties are bending beneath the load of fruit—these are Keswick's Codlin, Maiden's Blush, Hawthornden and Bethlemite (of Colo) his Winesaps are not fruiting, Fameuse a moderate crop, Twenty-Ounce, a fine crop, while nearly a hundred varieties show only now and then a specimen.

THE GROUNDS OF F. A. HOFFMAN

Adjoining Mr. W. on the East, are laid out in good taste. The trees embrace a great variety not only of fruit but for ornament, and are well worth a visit. We have known Mr. H. well and intimately since his arrival in this country, without funds and without a knowledge of the English language; but in the face of this, by his own talent and industry, he has placed himself among the leading business men of the West, and his home and its surroundings should be a star of hope to those who make our country their home. It is an assurance to them that with industry they can carve out for themselves a home around which may cluster the affections of the household. Mr. H. has lately returned from a winter's sojourn in his native home, and with a higher opinion of his adopted West.

OTHER FINE RESIDENCES.

Alexander Sille of the firm of Hoffman, Gelpcke & Co., has a fine new residence near Mr. H. The two Messrs. Miller are a little to the left. T. B. Bryan, Esq., has a fine residence south of the Station. Mr. B. spends much of his time and a large amount annually in improvements, probably more than any other man in Cook county, and in a few years, when his trees shall have more age, will be the most extensive private residence near Chicago. Mr. Healy, the portrait painter, has a place costing $14,000. Mr. I. . Case has forty acres in fruits, among which are 400 of the May cherry now in bearing, having been set four years and producing over a hundred bushels of fruits. Mr. Hagan is also largely engaged in fruit growing. Mr. G. Bate has a fine residence but he has paid more attention to grain growing; at the same time his yard presents some of the finest corners in the county. Mr. F. Fisher resides a mile north of the station, and was the pioneer in sending milk to Chicago; he is still largely engaged in this business. Mr. F. when a boy, was a table waiter at the Old Sauganash, and is another evidence of industry and enterprise among our German fellow-citizens. It will thus be seen that the business men of the city begin to appreciate Cottage Hill for its fine soil and healthy position. We could extend this notice but we have already made it longer than we intended. The corn is backward, but of a good color and with a good stand. Spring wheat and oats are also backward, but give excellent promise of an abundant crop.

Effect of the War on the Pope.

The Italian correspondent of the New York *Independent*, says:

Many among us believe that this war is, for Popery, "the beginning of the end." That the Papal power is to suffer much by it, no one can doubt. Think of the Papal States being nearly surrounded by a country where, with a constitutional government, will reign freedom of the press, freedom of speech and liberty of conscience! No frontier, no doganiere, can prevent these influences from creeping in; the people of the Roman States will want to have what they see enjoyed on their borders. Will the Pope grant it?—then it will be all over with him. Refuse it?—what will then become of him? Unless he is delivered from all the care of temporal government, which some think Napoleon, out of pure love for him and the Church quite disposed to do, great troubles are awaiting him. His manifest sympathies for Austria and hypocritical dealings with France, have lately much indisposed his powerful restorer against him.

The Bank War.

[From the State Journal.]

TIT FOR TAT.—The St. Louis papers of yesterday state that two bankers have left that city for Grayville, Illinois with about $40,000 in the notes of the Banks of the latter place which they intend presenting for redemption. It is understood this movement is in retaliation for the action of the owners of the Grayville Banks in running some of the interior Banks of Missouri.

BANKS REDEEMING.—A few days ago we noticed the protesting of the notes of several of the banks in the southern part of the State. We learn that the New Market Bank and the Bank of the Metropolis have since redeemed their notes in coin, through facilities offered by our city bankers.

Washington Items.

WASHINGTON July 3.—An official despatch from Frankfort says that the destructive consequences of the war, to commerce, industry, and labor in general, becomes daily more apparent; that a large number of factories in Germany are closed, and that those in operation are principally on American account, and for the supply of war orders.

There were fourteen bidders for supplying Anthracite coal for the navy. The offers ranged from $3 25 to $4 59 ₩ ton. The contract was awarded to Horace E. Brown, of Baltimore, for 15,000 tons Blackheath coal, or as much more if required at the first named price.

DR. CUTTER'S IMPROVED
Skirt Supporter,
Is an Article of Great Utility, which should be
WORN BY EVERY FEMALE.
This Supporter takes the weight of the skirt upon the Shoulders, the proper place, and relieves the stomach and abdomen, of that confinement and downward pressure, which is, by the most able Physicians, said to be the greatest cause of so much weakness and premature death among females. By taking the weight of clothes from off the stomach upon the shoulders, one is enabled better to stand erect, and thereby expand the chest and breath more freely. This, every sensible person knows, is necessary to the full enjoyment of health.
There are few ladies who have worn their clothes supported by the waist who have not realized the faint, and often distressing feeling, and also weakness of back consequent thereto. Then why not from others take warning ere it be too late.
Manufactured by CUTTER & WALKER, Lowell, Mass.

Educational.

AURORA INSTITUTE
—AND—
CLARK SEMINARY,
Erected and furnished at a cost of over sixty thousand dollars, is located at AURORA, Kane County, Ill., forty-three miles from Chicago.
The institution on the bank of the Fox River overlooks the city and a vast range of diversified country, and is eminently beautiful and healthful in situation. The building is Fire Proof, made of dimension stone, and in the best style of workmanship, and in fine architectural taste.
Provisions are made on a scale so extended as to afford a complete division of labor, and insure the greatest excellency in the departments of instruction, and the greatest economy to the pupils. It has every desirable convenience in Kitchen, Laundry, Bath-Rooms, Reading-Room, Laboratory Rooms for Recitations, Painting, Music, Ornamentals, Literary Societies, &c., &c. Every arrangement that much experience and observation in the best Eastern Institutions could suggest and Western capital and enterprise provide, has been made for the progress, health and comfort of students.
COURSES OF STUDY.
THE COMMON ENGLISH BRANCHES will receive special attention. Nothing will be allowed to supersede them. Two GRADUATING COURSES, or Scientific and a Classical, are provided for both ladies and gentlemen. There is a COLLEGE PREPARATORY COURSE, (purely Academic), aiming at special thoroughness in Latin, Greek and Mathematics. The COMMERCIAL COURSE is as extensive and thorough as that of our best Mercantile Colleges, *and at greatly reduced rates of tuition.*
A practical Physician and Surgeon, Abner Hard, M. D., will give weekly lectures, illustrated with a skeleton, on Anatomy, Physiology and Hygiene. Lectures on Agricultural Chemistry, Geology, Botany, &c., by C. D. Wilber, A. M., Superintendent of the Illinois Scientific Survey.
The MODERN LANGUAGES are taught by persons who speak and write them fluently—the German by a native.
In the DEPARTMENT OF MUSIC—vocal and instrumental—a full and thorough course is arranged, in the charge of an able Professor, designed to qualify pupils for teaching.
DRAWING, PAINTING and ORNAMENTALS are in the hands of skillful artists.
It is our purpose to furnish thorough instruction, and at *a cost so low as to be within the reach of the masses.*
The term commences September 1st, 1859. For Circulars containing full information address the principal, G. W. QUEREAU, A. M., Aurora, Ill.

For the advancement of those admitted no pains will be spared by the teachers. ja31

CONSUMPTION & CHRONIC DISEASES.
DOCTOR E. READING
Would announce to the citizens of Chicago and vicinity that he has returned from New Orleans and may now be consulted (except Saturdays and Mondays) from 9 o'clock A. M. to 5 P. M., for all diseases of the
Lungs, Throat, Heart, Liver, Female Complaints, and all Chronic Diseases.
As these diseases progress rapidly, and often imperceptibly to a fatal termination unless promptly arrested, an early application is of the utmost importance to all who wish a PERMANENT and SPEEDY CURE.
His great success in the treatment of the above diseases has now been demonstrated beyond a doubt, and those who are needing his services should call at once. Consultation Free.

LA PERLE and RUBIS
CHAMPAGNES.
The undersigned have been appointed SOLE AGENTS for the United States and Canada for the sale of the
Champagne Wines
Of Messrs. JACQUES GOERG & CO., at Chalons-sur-Marne, France. We present their Wines to the public under two brands, namely:
LA PERLE AND RUBIS.
The "PERLE" Wine is of exquisite flavor and quality taste, and is guaranteed to compare favorably with any Wine in the American market.
The "RUBIS" is a fine Cabinet Champagne, of a beautiful Ruby color, which is natural to the Wine. This Wine is undoubtedly one of the finest Cabinet Champagnes produced in France, and is MADE FROM GRAPES OF THE CHOICEST SELECTIONS.
From the long experience, extensive possessions, and large means of the well known house of JACQUES GOERG & CO., and their determination to furnish WINES which shall meet with the approval of consumers, we feel persuaded that a trial will fully establish all we claim for the excellence of these Wines.

THE LIVER INVIGORATOR,
PREPARED BY DR. SANFORD,
Compounded Entirely from Gums,
Is one of the Best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILLIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents the Nightmare.

Only one dose taken at night loosens the bowels gently, and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventative of CHOLERA.

LIVER INVIGORATOR.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

MORE TO BE ADMIRED

RICHEST DIADEM

What? Why a Beautiful Head of Hair.
Because it is the ornament *God Himself provided* for all our race. Reader, although the rose may bloom ever so brightly on the glowing cheek, the eye be ever so sparkling, the teeth be those of pearls, if the head is bereft of its covering, or the hair be snarled and shriveled, *harsh and dry*, or worse still, if sprinkled with gray, nature will lose more than half her charms. Prof. Wood's Hair Restorative, if used two or three times a week, will restore and permanently secure to all such an ornament. Read the following and judge. The writer of the first is the celebrated Pianist, Thalberg:

DR. WOOD:—*Dear Sir*—New York, April 19th, 1858. Permit me to express to you the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your "Hair Restorative" it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable. I am, dear sir, yours truly, S. THALBERG.

"Drych a'r Gwyliedydd."
WELSH NEWSPAPER OFFICE,
No. 13 Nassau street, April 12th, 1858.

PROF. O. J. WOOD:—Dear Sir:—Some month or six weeks ago I received a bottle of your Hair Restorative and gave it to my wife, who concluded to try it on her hair, little thinking at the time that it would restore the gray hair to its original color, but she as well as myself, after a few weeks' trial, it has performed that wonderful effect by turning all the gray hairs to a dark brown, at the same time beautifying and thickening the hair. I strongly recommend the above Restorative to all persons in want of such a change of their hair. CHARLES CARDIS.

New York, July 25th, 1857.
PROF. O. J. WOOD:—With confidence do I recommend your Hair Restorative as being the most efficacious article I ever saw. Since using your Hair Restorative my hair and whiskers, which were almost white, have gradually grown dark; and I now feel confident that a few more applications will restore them to their natural color. It also has relieved me of all dandruff and unpleasant itching, so common among persons who perspire freely. J. G. KILBY.

PROF. WOOD.—About two years ago my hair commenced falling off and turning gray; I was fast becoming bald, and had tried many Remedies to no effect. I commenced using your Restorative in January last. A few applications fastened my hair firmly. It began to fill up, grow out, and turned back to its former color, (black.) At this time it is fully restored to its original color, health, and appearance, and I cheerfully recommend its use to all.
Chicago, Ill., May 1, 1857. J. D. HOES.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, forty per cent. more in proportion, and retails for three dollars.

LOTS FOR SALE AT LAKE FOREST, ILLINOIS.
The lots belonging to LIND UNIVERSITY, and now offered for sale present favorable inducements to persons wishing to enjoy the pleasures of country life within an hours ride of the City of Chicago.
They are located at Lake Forest, on the west bank of Lake Michigan, elevated one hundred feet above the level of the Lake, about twenty-six miles north from Chicago, on both sides of the Chicago and Milwaukee Railroads, abound in mineral and other springs and natural beauties, and in the opinion of our best physicians the advantages for a healthful resort and residence are not to be exceeded by any on the sea shore or in the Western country.
A fine Academy building (the preparatory department of Lind University) has been erected the past season, and is now in successful operation in charge of S. F. Miller, A. M.
A new Passenger Depot, a Store and more than a dozen dwellings have been erected within the past year.
In addition to the regular through trains an accommodation train taking passengers on commutation tickets at half the regular fare, leaves Chicago every evening, and returns every morning, thus affording business men an opportunity to spend the day in the city and be with their families at night.
A good hotel has been opened and in successful operation for more than a year past.
The Lake Forest Association have also a few lots, mostly for farming purposes, lying near the town, containing from three to ten acres each, which will be sold at reasonable prices, and on usual time.
The subscriber has, within the past year, sold over twelve thousand dollars worth of the lands belonging to the University and Association, and proposes to sell a few more lots to persons who wish them for immediate improvement and cultivation.
For further particulars apply to Peter Page, No. 22 Washington street or address him through the Post Office. Box 296, Chicago, Illinois. PETER PAGE, Agent.

Commencement Day at Antioch College.

[Correspondence of the Press and Tribune.]

Yellow Springs, Ohio, June 30, 1859.

Yesterday was the third Commencement Day of Antioch College, and a proud day it was for the institution. The chapel in "Antioch Hall" was *filled*—seats, aisles and platform. Fourteen young men and four young women graduated and received their diplomas, certifying, as is the rule here, to their good scholarship and good characters. All but two of these eighteen read or recited "parts," and very creditable performances they were, both in the literary and moral tone of the parts themselves, and in the manner and style of delivery. There were several scholars and D. D.'s from Massachusetts here, who could compare these students and their performances with those of the older institutions in the East, and the uniform testimony of these scholarly critics was that these performances of the graduating students compared favorably with anything of the kind they had ever heard and witnessed. One of these gentlemen, at the Commencement dinner, said "he expected to find something of the '*spread eagle*' in the parts; but instead of that," said he, turning to President Mann, "I found their style as chaste as your own."

These "Parts" were interlarded with *Parts* of another kind, from a fine brass band, discoursing in stirring strains. The Baccalaureate, by the President, was a lofty, strong effort, with *telling* points to stir the hearer. Another of those Eastern gentleman said to me, "he expected to hear some things strange, erratic or fanatical," but so far from this, he "did not hear a sentiment in all the exercises which he would not *like to have taught to his daughters!*" Then there was on this occasion, as on the similar ones of this institution before, an earnest and practical, as contradistinguished from a merely artistic, fanciful mode or style both of thought and expression. The graduates of both sexes seem mature—half a life in advance of the mere boys and girls often graduated.

The Commencement dinner was held this year in the dining hall of the building called "Ladies' Hall." Mr. Mann, of course, presided, and he was felicitous in it. On his right were Rev. Dr. Calvin Lincoln, and Hon. Albert Fearing, of Massachusetts, and Ex-Governor (now Senator) Bingham, of Michigan; on his left sat Dr. Bellows and Rev. A. D. Mays, of New York. With such men as these and a score of others, even a dinner was relieved of stupidity. The after-dinner speeches were (if you can believe such a thing of that usually "stale, flat and unprofitable" class of effusions) uniformly lively and pointed. Broad humor, keen wit, elevated sentiment, profound philosophy,—each and all had play in the performances. This company numbered, probably, two hundred persons, and the occasion held them pleasantly for three hours.

At eight in the evening the mansion of the President was thronged with visitors attending on the President's annual levee. Here were students, faculty, friends and strangers *of* (not strangers *to*) distinction. It was a beautiful spectacle—that of all those *educated* and *being-educated* people of both sexes and all ages. At about ten and a half to eleven o'clock the company dispersed, and thus closed the Third Commencement of Antioch College. To-day the strangers are taking the cars for their distant homes, and the happy students, freed from study for a season, flee hither and thither (after affectionate leave-taking) to enjoy their vacation.

Note from Spectator.

Mendota, July 4, 1857.

Editors Press and Tribune:

Owing to the want of a sufficient supply of your paper to satisfy the calls made on the newsman for them, I have missed obtaining some dailies. I was not aware till I accidentally came in possession of the weekly of the 23d of June, that I had received so *complimentary* a notice from J. C. Medill. I shall allow no charges of falsifying to draw me into a personal controversy with the gentleman, and as I consider my own observation of the sayings and doings of the meeting as good testimony as to what was said and done, I have nothing to take back. If I were disposed to waste time with every one who chose to accuse me of falsifying, I should find a difficulty in the present instance of carrying on any controversy from the deficiency and suppression of the records of the meetings. The following on that point (the deficiency) I cut from Mr. Medill's paper:

"Discussion at Mendota.—By those who were present, it is said that the most interesting part of the proceedings at the Farmers' Congress at Mendota was the informal meeting in the evening at Hasting's Hall. As no minutes were kept by the secretaries, and as the editor of this paper was absent till near the close of the meeting, we are unable to furnish a report. In truth, the whole proceedings were far better than can be made to appear on paper."

I heartily concur with the sentiment of an editor who in noticing the 'Congress' says he hopes there will be Farmers enough at the next meeting to see that things are done with good sense.

Illinois Natural History Society.

[Correspondence Missouri Democrat, June 30th.]

The Natural History Society of this State met in this place on yesterday. Two business meetings of the Society were held during the day, at which the Constitution was amended, and the following officers elected for the ensuing year:

President—Prof. J. B. Turner, Jacksonville.

Vice Presidents—Prof. J. H. McChesney, Sangamon county; B. M. Wiley, Union; B. G. Roots, Perry; Dr. Edmund Andrews, Cook; A. M. Gow, Lee; Dr. F. Brendel, Peoria; M. L. Dunlap, Champaign; Wm. Le Baron, Kane; S. B. Mead, Hancock.

Secretary—Richard Holder, Bloomington.

Treasurer—Dr. E. R. Roe, Bloomington.

Superintendent—C. D. Wilber, Bloomington.

Curator—Cyrus Thomas, Jackson county.

Executive Committee—Ira Moore, Bloomington; C. D. Wilber, Bloomington; C. D. Bragdon, Chicago; Cyrus Thomas, Jackson county; Dr. G. Vasey, McHenry.

The Society met again yesterday evening at the hall of the Normal School. During the evening, papers were read by the members on various scientific subjects, as follows:

On the study of Natural History, by Cyrus Thomas, of "Egypt."

On Meteorological Observations, as applied to the study of the growth of plants, by Dr. Brendel, of Peoria.

On the Mosses of Illinois, by Dr. Vasey, of Kendall county.

On the local extinction of some species of shells in the ponds and Lakes of Illinois by the drouth of 1853-'4, by Dr. E. R. Roe, of Bloomington.

Prof. J. H. McChesney, who presided, closed with a short but highly interesting address, on the study of Geology, describing and illustrating some of the geological formations of Illinois, and urging the importance of a more general study of the science.

In addition to the members, quite a number of listeners were present, who, notwithstanding the necessarily technical nature of the addresses, seemed well entertained, and testified their approbation of the performances. The several speakers urged, very justly, the great importance of popularizing the various branches of natural science. According to popular ideas, science don't pay, and the thorough student and patient explorer in the great fields of nature receives no sympathy or encouragement from the people at large; they see in his passion for catching bugs, for drying weeds, or hammering rocks, but a crazy enthusiasm which they do not comprehend, and care not to learn. It is, of course, idle to attempt to imbue the masses with this enthusiasm, or interest them in these minute researches. But it is both possible and desirable that the outlines, at least, of the various branches of natural science, should be more generally pressed upon the attention of those who are being educated.

The Natural History Society of this State is yet in its infancy, numbering at present only some thirty members, and having been organized only about a year. Nevertheless, the few are working with commendable zeal; the Society employs Prof. C. D. Wilber to travel as its agent, to create an interest in the subject by means of popular lectures, and to collect a museum of specimens. He has already succeeded in making a considerable collection, a part of which he had on exhibition at the Normal School. The Museum of the Society is to be permanently located at the Normal University, where it can be made directly available for the purpose of instruction.

Wonderful News from Ireland.

One of the most remarkable letters lately received from Europe, is that of the Irish correspondent of the New York *Observer*, in which he describes in glowing words the origin and progress of the blessed and powerful work of grace in Ireland. Beginning with the conversion of a family near Ahoghill, an extraordinary interest has been awakened. "Prayer-meetings multiplied—crowds flocked to these refreshing streams—no ordinary houses were able to accommodate the eager multitudes that assembled to hear the burning prayers, and to listen to the plain but heart-stirring addresses of the converted brethren, and those ministers and laymen whose hearts the Lord moved to engage in this important work. The open field or the public wayside, even in the cold evenings of spring, were the scenes of deeply interesting meetings, over which angels hovered with joy. The gracious revival has extended from the parish of Connor to that of Ahoghill; then to Portglenone, and round by Tully, Largey, Grange, Straid, Slatt, Galgorm Park, Killalers, Cloughwater, Clough, and Rasharkin; nor is it yet showing any symptoms of decline—on the contrary, it is moving on with amazing power. Every day, and almost every hour, is bringing tidings of conviction. The interest is more and more awakening and extending.

A Flouring mill and six dwellings were destroyed by fire at Oshkosh, Wis., on the morning of the 22d inst. Loss $13,000.

[From the Hon. Theophilus Parsons, LL.D., Professor of Law in Harvard University.]
It is the very best Cyclopedia for practical use ever published. I have some knowledge of all in our own language, and of a few of those of the Continent of Europe. This book embodies and adequately represents the knowledge available at this day for a work of the kind. Its merit and cheapness must eventually place it in every library.
[From the N. Y. Courier and Enquirer.]
The New Cyclopædia furnishes a greater amount of information, in a more interesting manner, and a more accessible shape, than can be obtained in any other quarter for four times the sum that it will cost.
[From the Baltimore American.]
Every subject to which a student, or man of general information, may desire to refer, will be found in this work properly classified. There is no doubt it will be the standard of reference in every library, public and private.
[From the Indianapolis Daily Journal.]
If one has forgotten a name, when a historical character lived, how to build a bridge, what the teachings of Aristotle were, where a South Sea Island lies, what a Congressional measure may have been, what the latest scientific developments are—he has only to turn to his "Appleton," and find just what he wants.
[From the N. Y. Chronicle.]
We have found it clear, succinct in its statements, profound in its views, learned and comprehensive in its materials, and full of the information which one expects to obtain from a book of reference.
[From the St. Louis Democrat.]
The value of a work of this kind, to every man of intelligence and learning, can hardly be estimated; it will surprise us if this Cyclopædia does not find its way into the homes, and to the firesides, of nearly every intelligent family in the Union.
Published by Subscription in fifteen large 8vo volumes, each containing 750 two-column pages. Volumes I., II., III., IV., V. and VI., now ready, and subsequent volumes will be issued every two or three months, each payable on delivery.

COUNTERFEIT BANK-NOTES.
Eureka Counterfeit Detecter—Hewet's Encyclopedia of American Bank-Note Currency—By Photo-Lithographic Fac-similes, in miniature, of every genuine note of every Solvent Bank in the United States and Canada—An Infallible Detecter of Altered, Spurious, and Counterfeit Money. With a fac-simile of the Genuine Notes before you, how can you take the bad?
No Written or Printed Description of Bank-Notes, no Matter how Carefully Complied, can ever be made an Infallible and Perfect Protector.
Since the application of the art of Engraving to the commercial use of paper currency—a period of more than fifty years—it has been the object of all the parties interested to secure their issue against the liability of alterations of titles, and the *raising* or substitution of higher denominations of value; but, so far, that desirable object has never been accomplished, for upon the *one hundred and forty-four fac-similes* of genuine Bank Notes contained in the very first number of this *Encyclopedia*, there are *seventy-eight altered, raised and spurious* notes now in circulation.
The plan of this work has received the highest encomiums for its great utility and value to the public, as a protector against loss by fraudulent paper money, as well as for its desirability as illustrative of a department of the fine arts in which this country excels all others.
From a great mass of such notices, we mention the following from persons occupying the most important and influential relations to the security of paper money, viz:
CHAS. TOPPAN, Esq., President of American Bank Note Company.
The Hon. JAMES M. COOK, Superintendent Bank Department, State of New York.
The Hon. J. C. SQUIRES, Superintendent Bank Department, State of Wisconsin.
METROPOLITAN BANK, New York.
G. D. LYMAN, Esq., New York Clearing-house.
The Hon. CHARLES WHITE, Superintendent Bank Department, Massachusetts.
H. B. GROVES, Esq., Boston Clearing-house.
NEW ENGLAND ASSOCIATION FOR SUPPRESSION OF COUNTERFEITS, Etc., Etc., Etc.
The work will be arranged in alphabetical order—the most simple arrangement possible for reference—commencing with the Bank Notes of the City of Boston Banks, and State of Massachusetts; then of the banks of the other New England States; then of the Middle, Western, Southern States and Canada, in regular succession.
The new notes of new banks, as fast as they appear in circulation, and also all alterations of notes of banks now in existence, will be issued in the same style with this work in a weekly or monthly extra, and in this manner the public will always be kept fully advised in regard to the entire circulation of the genuine paper currency of the country.
The ENGRAVED FAC-SIMILE COUNTERFEITS will be designated in each number; and their distinctive features from the GENUINE notes will be made as plain as possible.
The Work will be issued in weekly numbers, each of which will contain 144 *fac-similes* of genuine notes, and will be comprised in about 75 numbers, and about 11,000 *fac-similes* of genuine notes, and will be completed within one year from the date of the first number by a more rapid issue near its completion.
THE IMPRESSIONS OF NOTES IN THIS WORK ARE NOT PHOTOGRAPHS BUT PHOTO-LITHOGRAPHS, PRINTED FROM STONE WITH CARBON INK, AND WILL NOT FADE.
The first number will be issued on Saturday, 2d July, and regularly, thereafter, every Saturday, and will be for sale by all Newsvenders and Periodical Agents.
The price of the weekly numbers will be 25 cents each. Subscribers, by prepayment of $15 in current funds, will have the weekly numbers of the work entire mailed to them postage free. All remittances may be made at our risk. Postage stamps will be received in payment for single numbers only, which will be free of postage.
A liberal discount will be made to AGENTS. All orders must be accompanied with CASH. Address

SOMETHING NEW!!!
MITCHELL'S PATENT
Metallic-Tipped Boot and Shoe.
An improvement has been applied to Boots and Shoes, by which a Great Saving in Expense is made. Every Boot and Shoe Dealer knows that Children will wear out at the toe the best constructed shoe in four to six weeks, and that it has hitherto defied the skill of manufacturers to obviate this difficulty.
THE "METALLIC TIP"
meets and overcomes it. A small piece of copper is neatly fastened to the toe of the Boot or Shoe, affording a complete protection to it, and rendering the efforts of the most inveterate stamper ineffectual to kick or wear it out.
We present this invention with the fullest knowledge of and experience in its Practical Utility. Having now for nearly two years been subjected to the severest tests, it has by its own intrinsic merits, actually surmounted every objection that could possibly be brought against it, as the accompanying certificates, which are but a fair average of hundreds of others, will abundantly corroborate. We have no hesitation in saying that the Metallic-Tipped Shoe is destined to entirely supercede, for Children and Youth, the old style; and we consider it a moderate statement, that one pair of the Metallic Tips will outwear two to three pairs of the old style, making a saving of nearly two-thirds in the expense of shoes
MESSRS. WADSWORTH & WELLS,
OF CHICAGO,
Hav been appointed Agents for the sale of the Boots and Shoes, and are authorized to dispose of Town and County Rights.
Communications addressed to them or the undersigned will receive proper attention.
CHASE, McKINNEY & CO.,
46 and 50 Water st., Boston, Mass.
N. B.—This invention is a complete protection from the cutting of the Prairie Grasses, and is especially adapted to Miners' use, and all occupations which particularly expose the toe of the boot or shoe to being cut or worn. ja26-d1-1y

HYDE PARK HOTEL.
The undersigned, having leased the above House, respectfully announce to their friends and the public generally, that they will be ready to receive guests
On or about the 25th inst.
The advantages of this LAKE SHORE RETREAT, as a Summer Resort, are unsurpassed, it being of easy access from the city, by Railroad, Carriage or Lake.
The house will be lighted with gas, and contain all other modern improvements. The grounds are beautifully diversified with Walks, Trees, Shrubbery, &c. Suitable buildings are being erected to be appropriated for the amusement and benefit of the guests of the House. In short, nothing shall be wanting to make it a most delightful Summer Resort to either transient or permanent sojourners.
Parties desirous of making arrangements for board for the season, can do so now, by applying at the Richmond House, Chicago. TABER, HAWK & CO.,

LAKE VIEW HOUSE,
H. W. CHESTER, Proprietor.
Having purchased this well-known establishment, I have refitted the same, supplied it with new furniture, made a number of additions and alterations, calculated to meet the wants of the public, and hereby announce that it is now open and ready for the reception of guests. The locality of this Hotel has few equals in the Western country. Its proximity to the Lake Beach, the attractive scenery, bathing houses, bracing air, fine drives, all tend to recommend it as the most desirable spot for Western people to take refuge from heat, dust and epidemics.
Gentlemen with their families who desire to pass a few weeks away from the heat and dust of the city, will consult economy as well as health and recreation by calling and selecting rooms at once. Stages run every hour to and from this Hotel.

BY TELEGRAPH.

Four Days Later from Europe.

ARRIVAL OF THE VANDERBILT.

LATER FROM THE SEAT OF WAR.

The Allies Besieging Mantua.

NEW YORK, July 5.—The steamship Vanderbilt has arrived from Havre and Southampton, bringing London and Liverpool dates to the 22d ult., four days later than those received by the Arabia.

There are no battles reported from the seat of war, but the Allies are besieging Mantua, and another decisive battle may soon be expected.

The Austrians have issued at Mantua a forced paper currency of £5,000,000 sterling.

King Victor Emanuel has officially declared that he would not consent to the annexation of any part of the Roman States to Sardinia. The Austrians have removed their head-quarters to Villa Franca, midway between Verona and Mantua. They have abandoned Lonato on Lake Garda, and Castiglione and Motechiaro, which recent positions they have occupied in great force and strongly fortified.

The French and Sardinian troops occupy Brescia, and the Emperor Napoleon had advanced from that position on the Austrians. Kossuth had embarked for Genoa. Many other Italian cities had pronounced for the Italian cause. Gen. Garibaldi marched on the 20th ult. from Salo, on Lake Garda, towards Descenzano, but was repulsed by an Austrian force. He has since passed his outposts to Balladore in the direction of Bardio, which latter place is occupied by the Austrians.

Victor Emanuel has refused the Dictatorship offered him by the commissioners from Bologna, in pursuance of his determination to decline the annexation of any part of the States of the Church.

The Austrian official account of the losses sustained during the battle of Magenta has been published. The killed are stated at 63 officers and 1,302 soldiers. Total, 1,365. Wounded, 218 officers, and 4,138 soldiers. Total 4,356. Missing, 4,000 soldiers. Total, killed, wounded and missing, 9,713.

Advices from Egypt say that the Pasha has ordered the suspension of the works in connection with the Canal across the Isthmus of Suez. The French Consul had protested against this interference.

A dispatch from Berlin says that six Prussian *corps d'armee*, besides the guard, are to be mobilized, and three others kept in reserve to oppose Russia, if necessary. All the other corps will be concentrated on the Rhine, and only a sufficient number of troops kept in the provinces to garrison the towns and fortresses. The various bulletins from the seat of war present the following as the state of affairs: The Sardinian army is in position before Brescia, in line with the French troops. The cities of Fano, Fossombrone, Jesi and Ancona, have all pronounced in favor of the national cause. Another dispatch says that the Austrians had re-occupied Montevolo on the 17th, in considerable force. The report that a French *corps d'armee* had occupied the Valtelline, is untrue. A Lombardy corps, under some of Garibaldi's officers, was stationed there. Two thousand Papal troops had been sent from Rome to restore order in Pinigo. A collision had taken place at Cersica between a detachment of the Papal troops and the inhabitants.

A dispatch from Turin, dated the 18th ult., says that the Emperor Napoleon entered Brescia on that day with Victor Emanuel. Much popular enthusiasm accompanied the march of the allied army throughout Lombardy. The district on the right of the Ticino, also Lino di Cadeno had declared for the national cause. Victor Emanuel in refusing the dictatorship of Bologna, told the commissioners that he should disapprove of every act subversive of or contrary to equality, and prejudicial to the cause of national independence. The King had also sent a message to the Pope, to assure him that he has nothing to fear, and that the independence of the Peninsula should be a guarantee and not a menace to the neutrality and integrity of the States of the Church.

A dispatch from Berne, dated the 18th ult. says that the Austrians, in great force, have occupied the Stelvio Pass, blown up the Devil's bridge, and planted their artillery in the pass. They have also made intrenchments at Manders. A French army is advancing by forced marches against this position. Gen. Garibaldi was organizing a free corps in the Valtelline.

The city of Mantua is beseiged. The provisioning of the place has been ordered. The Austrians had destroyed the railway from Milan to Brescia. The French official reports make their loss at the battle of Magenta, 323 killed, 2,165 wounded, and 470 missing, and Melagnano 150 killed and wounded, and 64 missing. The Austrian prisoners are to be sent to Algiers to be employed at the public works, agriculture, &c. Gold and silver medals are to be distributed by the King of Sardinia to the Zouaves who distinguished themselves at Palestro.

A dispatch from Munich says that Maj. Gen. Van Tann had gone to Berlin on a special mission. Advices from Egypt say that the Pasha had suspended the Suez canal works; that M. Leseps had protested, and that the French Consul was about to interfere in the matter. King Leopold, of Belgium, was making preparations to visit England. The London *Times*, in speaking of Kossuth's mission to Italy, says he will be employed at once in acting on the Hungarian regiments in the Austrian service, and if possible, produce a revolt in Hungary.

The same paper, in referring to the Russian circular of the 27th of May, says that it had failed to convince the German Governments. Prince Gortschakoff's dispatch must be considered a complete confirmation of the continually recurring report that Russia has promised France to interfere, should the German Bund render assistance to Austria.

A dispatch from Paris says: "One hundred rifled cannon were sent on the 17th ult., to the army in Italy."

Advices from India announce signs of mutiny at Gwalior, Meerut and other places, among European troops.

Mr. Wise's Balloon Voyage—He Reaches Albany—Narrow Escape of the Aeronaut.

ALBANY, July 5.—The Albany *Argus* has the following concerning the balloon Atlantic. Mr. Wise, the celebrated Aeronaut, arrived in Albany at 8½ o'clock yesterday A. M. He reports that from St. Louis to Medina, New York, from which the last telegraphic dispatch concerning the balloon was received, the voyage was highly successful, the balloon working to their entire satisfaction, and justifying the hopes with which they had set out, that they would reach the seaboard at this point. However, they found that they were somewhat out of their course, and could not passage to New York, being too far north, and therefore determined to proceed to Boston or Portland before taking that direction.

It was concluded to land at Rochester, there drop Messrs. Gager and Hyde and then proceed on their journey eastward; in carrying out this intention they dropped down gradually, and finally struck a hurricane perfectly frightful in its force which hurried them along towards Lake Ontario. They were driven down to the very surface of the water, where the balloon was lightened in every possible way, and carried with fearful speed and violence towards the shore; then through a piece of wood into which they finally managed to land. This was in Henderson, Jefferson County.

The entire distance traveled was 1,100 miles in nineteen hours and fifty minutes.

One of the marked incidents of the voyage was an oversight which came near proving disastrous to Mr. Wise. He was in the wicker basket, and being overcome with fatigue laid down and fell asleep. The rest of the party were in the boat below. It being necessary to advise with him on the point as to the course of the balloon, they spoke to Mr. Wise several times, but receiving no answer, Mr. Gager went to him by climbing the ropes, and found him breathing spasmodically from the effects of the escaping gas, which was slowly suffocating him. He was immediately aroused by Mr. Gager and soon recovered his senses.

The greatest altitude attained was two miles.

TROY, N. Y., July 5.—The strength and general excellence of the arrangement of the balloon-basket probably saved the party. The balloon was left in a high tree, swinging about the boat and much damaged.

Mr. La Mountain remained with the balloon. Messrs. Wise, Gager and Hyde will come on in the eastern train.

A grand reception was given to the parties in the village of Adams. Mr. Gager will come to Troy, Mr. Wise to Albany, and Mr. Hyde to New York.

WATERTOWN, N. Y., July 4.—Mr. La Mountain arrived here this morning with the balloon Atlantic. He announces that as soon as the balloon is repaired he will make another voyage from Chicago eastward.

LANCASTER, PA., June 5.—Prof. Wise returned to this city last evening. He publishes a full account of the late voyage in the balloon Atlantic in this evening's *Express*, and concludes the sketch with the remark that he is willing and anxious to attempt a voyage across the Atlantic with an outfit that will not cost over $6,000, and will do so as soon as he can raise the means.

Ship Burned at Sea.

QUEBEC, July 5.—The steamer North America, from Liverpool on 23d ult., has arrived. Her general advices had been anticipated.

The ship Stalwart, owned in New York, and bound from New Orleans to Liverpool, was completely burned at sea. The captain and crew had arrived at Queenstown. She had a cargo of 2,800 bales cotton. The vessel was fully insured in New York, Philadelphia, and New Orleans offices.

Calamity at Pike's Peak.

LEAVENWORTH, July 4.—The Express from Denver City, 22d June, arrived yesterday. There had been a large conflagration at the Pineries on the divide between Gregory's and Jackson's diggings. It is reported that twenty lives were lost. Five bodies have been recovered—names not ascertained. Considerable dust was awaiting shipment at Denver City. Specie was in great demand to make purchases.

Lake Marine Disaster—10 Persons Drowned.

CLEVELAND, July 4.—The Barque Sunshine capsized on Saturday afternoon, off Fairport. The captain, 1st mate, four of the crew and three children were lost. The captain's wife, 2d mate and six of the crew were picked up on Sunday, A. M.

The barque R. A. Stanard, from Buffalo for Chicago, capsized on the north shore, on Saturday. The two mates were drowned.

Serious Fire.

BOSTON, July 5.—A fire yesterday P. M. in Dorchester avenue, South Boston, destroyed five dwelling houses and a carriage factory. Loss, $10,000, partially insured.

Fatal Accident.

NEW HAVEN, July 5.—A young man named [illegible] Baldwin was killed in the adjoining town of North Branford, by the bursting of a cannon.

Washington News.

WASHINGTON, July 5.—There is such information in Washington as warrants the belief that the recent change of the British ministry will affect the present position of her Majesty's representatives abroad, with the exception, perhaps of Lord Cowley at Paris.

According to advices from Vera Cruz it was believed in official circles that the five million conducta detained by Robles for the purpose of extorting additional tax, would soon reach that city. The convention concluded by Minister McLane with the Juarez government, has been forwarded hither by him. The others are in a fair way of consummation, there being no difficulties about the preliminaries, while the import and export dues at Vera Cruz have been considerably diminished in consequence of the unsettled condition of our affairs in the interior. The receipts at the other ports on the Mexican coast have largely increased. The United States steamer Brooklyn was to leave Vera Cruz for Pensacola on the 20th ult.

Miscellaneous.

BOSTON, July 5.—Mr. Orthall, acting Vice Consul at Gloucester, committed suicide on Sunday by hanging himself.

NEW YORK, July 5.—Pat. Hearn, the celebrated sporting man died to-day.

HARTFORD, CONN., July 5.—Factory No. 2 of the Eagle Lock Co., at Terryville, Conn., was destroyed by fire yesterday.

ST. LOUIS, June 5.—A convention at Lamanville, Arizona, renominated Sylvester Mooney to Congress by acclamation.

Sad Calamity in Michigan—Sixteen persons Drowned.

HILLSDALE, Mich., July 5.—An accident occurred yesterday afternoon on Clear Lake, Steuben county, by the upsetting of a sail boat, containing a party of twenty-eight persons, mostly ladies and children, sixteen of whom were drowned.

Fatal Railroad Accident.

NEW YORK, June 5.—The 5 o'clock train of the Harlem railroad ran off the track when near Hunt's bridge this A. M., and Edward Hall, a mail agent, was killed. Two cars were badly damaged. The engineer, fireman and brakesmen were taken from under the ruins, each only slightly injured.

The Cricket Match between England and America.

NEW YORK, July 5.—The cricket match between 18 American and 11 English resident players, commenced yesterday with the score of the first innings of 71 for the former and 90 for the latter. The match was resumed to-day.

Obituary.

BOSTON, July 5.—The wife of Hon. Edward Everett died in this city on Saturday night.

WASHINGTON, July 5.—Hon. W. O. Goode, member of the last Congress from Virginia, died near Boydstown on Sunday morning, of consumption.

GENERAL PATENT COMMISION WAREHOUSE.

The subscribers desire to inform Inventors, Patentees and Agents, and the public generally, that they have established a warehouse and exhibition room at the above location, where they exhibit and offer for sale a large variety of the latest and most useful inventions. The office is thrown open as the Headquarters of Inventors who desire to procure Patents, and to Patentees who desire to dispose of same. Consignments of Rights and articles for sale on commission, in all classes of useful inventions, respectfully solicited. The attention of Manufacturers and Mechanics is particularly invited, as rare opportunities for profitable business investments can be offered. Applications for Patents made with care and promptness, at reasonable terms. To responsible men, with right kind of abilities, there will always be a call to act as agents—but to none others. Much effort will be made to give any information in Patent matters that may be desired.

The public generally are invited to visit the rooms and examine the articles on exhibition, and they will be explained to visitors with pleasure.

MONETARY.

TUESDAY EVENING, July 5.

As was expected, Exchange was decidedly weak to-day, at former rates, viz., ¼ premium, but the banks still maintained it steady at these figures. Sales were made outside, ⅛, and we presume ⅛ below current figures. Some who were short of currency proposed to put it down ⅛, but the rate was not agreed on. Unless bracing comes from some source it can scarcely be kept even at 2 per cent. for the next ten days. The feeling begins to prevail that it must come down—and hence holders will press all they can spare on the market as fast as possible.

Gold could not be sold to-day above 2@2½. Bankers bought as low as 1½.

Discounts for strictly business paper are easy at 10 per cent. Eastern paper is gladly taken by the banks. Outside the banks there is very little business doing, and rates are nominal as usual at 1@2 per cent. per month.

ST. LOUIS.—The *Democrat* of yesterday says that the payments of the 1st and 4th in that city were very generally met. As in this city they were large, but the result shows a more healthy condition of Western finances. We quote the following paragraph from the article of the *Democrat*:—

The market for Exchange on the East has ruled very high, and a great scarcity still exists; yesterday some bankers were not drawing at all. To-day a party could obtain but $10,000, even at 1 per cent. premium, in making quite a circuit of the banks; but regular customers can obtain fair supplies from some of the institutions at which they deal. We quote it at ½@1 per cent. premium, selling.

Prospects are that there will be a demand for all the surplus curency during the month now commencing. Parties are already making arrangements to buy wheat in the country largely, and some demand is already had at the Banks for this purpose. If a sufficiency is furnished to move the immense crop now being harvested, it will require, at the inflated prices heretofore paid, all the currency now issued, as well as the reserve recently retired by all our Banks of issue. Would it not be better to supply grain buyers less currency; and although the prices paid in consequence for Produce might be lower it would be only apparently so, for the money received would be of more actual value than if the country were flooded with printed pictures of promises to pay; shipments would take place, and a more healthy state of things follow; Exchange would be abundant, whereas now it can't be had. At present, nobody wants grain or flour to ship, because prices are almost equal to those at the seabord. Besides, we want more gold and less paper—more real substance and less show and sham.

CINCINNATI.—The *Gazette* of yesterday has the following:

The first of the month being, by the usual custom, the great semi-annual settlement day, naturally leads to increased activity in the money market, and the local business has consequently been quite large, the last two or three days of the present week; but there is no stringency, and all the good paper offered was taken by the regular houses at the usual rates, 10@12 per cent. There is a fair demand for Eastern exchange, but the supply is good, and the market steady, without any indications of depression or buoyancy. We continue as before:

	Buying.	Selling.
New York Sight	⅜ prem.	⅜@½ prem.
American Gold	⅜ prem.	⅜ prem.

In comparing the price of exchange in Cincinnati and St. Louis and this city, it should be remembered that here the standard is currency, there it is coin; hence the discount on currency there should be added to the premium on exchange in order to render the comparison a fair one. For several weeks past Illinois and Wisconsin currency there has ruled at 1@2 per cent. discount, and hence the price of exchange has been as it generally is, about the same in three leading Western cities. The admonition of our St. Louis cotemporary that "it is about time for the Chicagoans to put down the price of exchange," will apply about as fairly to St. Louis bankers as those of Chicago.

WEEKLY REVIEW—WEATHER AND CROPS.—During the past week the weather has been exceedingly variable, with changes from intense heat to cold, with occasional showers of rain. On the whole, however, it has been favorable to the growing crops—especially spring wheat, which is more in danger of heavy dews followed by a hot sun, than of cold and variable weather. The reports from the interior are favorable to the growing corn crop, which will probably be very large. The rumors noticed a week since relative to rust in the spring wheat have proved nearly groundless. It is true some fields were attacked with a kind of rust on the leaves, known as *red rust*; but that is not considered hurtful to the crop. It is the black rust which proves fatal; and so far as we have heard, the crop has not been touched by it. The winter wheat crop is being harvested all over the State; and while the yield will not prove a large one, still the quality is excellent. Oats and barley look well.

The *Vanderbilt*, with Liverpool dates to 22d ult., arrived at New York on Sunday night. Wheat had advanced 1d@2d, under a French speculative demand. Corn was quiet, but at the close advanced 3d per central.

The wheat market to-day was unusually quiet. At the opening a firmer feeling predominated, and ½c advance was paid, which, however, was lost before the close. About 15,000 bushels in all changed hands, at $1.52 for choice new Red Winter on track; $1.25 for No. 1 Red; 95c for No. 2 Red; and 89@90½c for Standard Spring. Corn was dull and the market declined 1c, with sales of about 28,000 bushels at 72@72½c for Canal afloat, and 70c for No. 1 in store. Oats quiet. Rye and Barley unchanged. Nothing doing in Provisions. Wool firm and active. Hides scarce and firm.

SALES OF NEW WHEAT.—This morning Geo. R. Eckley, Esq., made the first sale of new wheat in this market. It was beautiful Mediterranean Red Wheat, and weighed 60 lbs to the measured bushel—grown in Perry County, Ill., and shipped by Maberly & Sons of Du Quoin. It was sold to Messrs. Gage & Heart, at $1.52 per bushel on track, for their mill.

Weekly Review of Chicago Market.

TUESDAY EVENING, July 5, 1859.

FREIGHTS.—Freights during the past week have been very scarce, and rates have ruled exceedingly low—seven propellers having taken corn to Buffalo at 2½c, and some charters are rumored at even lower figures. The following charters were reported during the week:—Prop. Potomac, wheat to Buffalo at 3c; prop. Plymouth, corn to Buffalo at 2½c; prop. Cuyahoga, corn to Buffalo at 2½c; brig Young America, oats to Buffalo at 2c; Prop. Globe, corn to Buffalo at 2½c, and wheat at 3c. TO-DAY, a propeller takes corn to Buffalo on private terms. Flour is taken to Montreal, via Collingwood and Grand Trunk Railway, at 55c; to Montreal by water from Toronto, 45c. Flour to Buffalo, 15c; to New York, via lake and canal 50c.

The Eastern Railways have during the past week issued their new freight tariff. The following are the new rates for carrying fourth class goods, ℔ 100 lbs: to Boston, all rail, 50c; do water from Philadelphia, 41c; to New York, 45c, to Philadelphia; 40c; to Buffalo, Dunkirk and Cleveland, 25c; to Albany, 41c; to Pittsburgh, 30c.

FLOUR—Receipts last week, 13,831 bbls; shipments 12,000 bbls. The flour trade during the past week has been perfectly stagnant. There has been an entire absence of any shipping demand, and there has been no speculative inquiry for many weeks. A few sales have been made daily to the city trade, in small lots, at a range of $4.50@5.50 for Spring Extras, and 5.50@6.75 for Winter; but the business transactions has been so limited that it scarcely gives an indication of the market. The stocks are gradually getting lower, on account of the shipments of holders to Eastern markets; but the receipts are sufficient to meet all the home demand there is—which will probably be very light in view of the new crop of Winter Wheat being ground. During the week one of our commission merchants had a consignment of flour made from Southern Illinois Red Winter Wheat. Rye Flour has been in limited request, with sales at $5.

TO-DAY the only sales reported are:—75 bbls good Winter Extra at $6.25; 45 bbls Spring Extra at 5.12½.

WHEAT—Receipts last week, 33,884 bu; shipments 54,891 bu. At the beginning of the past week the market rallied under an improvement in Buffalo, and prices of Standard Spring Wheat ranged for two or three days from 90@93c, with a firmer feeling among holders, and a fair speculative demand. At the close, however, this feeling gave way to that of dullness, which continued till the arrival of the *Vanderbilt*, which caused a temporary reaction. There has been very little movement in Winter grades, and at the close they are very dull and heavy, with little or no inquiry. The sales of No 1 and No 2 Red have been made chiefly to millers. A car-load of new Red Winter Wheat from Southern Illinois was sold on track to-day at $1.52—the *first new wheat sold here this season*. The receipts continue very light. The sales of the week were as follows:

Date.	No. bu sold.	No. 1 Red.	No. 2 Red.	Stan'rd Spring.	No. 2 Spring.
29th	45,000	$1.22@1.25	$1.03@1.04½	87@93c	...@80
30th	42,000	....@1.25	....@1.05	92@93c	...@81
1st	33,000	.... 1.25	....	90@92c	... 80
2d	25,000	....	....	89@91c	....

TO-DAY the Wheat market opened firmer, but dragged along throughout the day at about Saturday's prices. Sales were: WINTER—350 bu choice new Red Wheat in bags at $1.52 on track; 300 bu No 1 Red at 1.25; 300 bu No 2 Red at 95c. SPRING—300 bu No 1 Spring in bags at 95c on track; 1,700 bu Standard at 90½c; 9,000 bu do in lots at 90c; 1,000 bu do at 89c—market closing quiet.

CORN—Receipts last week 136,001 bu; shipments 74,926 bu. The market during the past week opened dull; but an improvement in New York caused a buoyancy here, and a firm market, with an advance of 3½c@4½c on the opening prices. During the past two days, however, the market became very quiet, and the advance has been nearly lost again. The demand is principally for No 1 Railroad and Canal grades. Very little Illinois River has arrived, and although there are several handsome lots in store, they are generally held above the views of buyers. The sales of the week will be found in the following table—the prices of No 1 and No 2 being given "in store," and Canal "afloat:"

Date	Am't sold bu	River.	Canal.	No. 1.	No. 2.
29th	35,000	..	68@70 c	68 @69 c	65 @65½c
30th	35,000	..	71½c	69½c@71½c	66—68
1st	38,000	..	73 74½c	72 @73½c	....
2d	5,000	..	....	71 @71½c	....

TO-DAY the market was dull, and a still further decline of 1@1½c was submitted to. Sales were—14,000 bu Canal at 72c afloat; 5,000 bu do at 72½c afloat. 7,000 bu No. 1 in lots at 70c in store; 700 bu do at 71c on track; 5,000 No. 1 for delivery on the 15th inst at 71c.

OATS—Receipts last week, 9,750 bu; shipments 23,513 bu. The market during the past week has been steady under a fair home and shipping demand, at a range of 36@37c for No. 1 in store. Several lots of choice old oats have been sold at 40@45c in bags, and rejected at 30@31c in store. TO-DAY the sales were:—500 bu No. 1 at 37c in store; 400 bu do in bags at 38c on track.

LUMBER.—The receipts during the past week show an increase over those of the preceding week of nearly 2,000,000 feet. Notwithstanding this, however, the prices of cargoes have been well maintained; although at the close the market is rather dull. A much larger proportion of the cargoes, however, have been docked, the owners not caring to glut the market by offering them for sale. There is, however, still a good inquiry for strips, and choice cargoes meet with ready sale. Long timber is also scarce and in demand. The sales of the week are as follows:

SALES OF CARGOES DURING THE WEEK.

Schr Union, from Kalamazoo, mixed, at $7.00 for boards and timber and 8.25 for strips.
Schr D Eaton, from Muskegon, mixed, at 8.50.
Schr Wyoming, Grand River, two thirds strips, at 8.00.
Schr Jo Vilas, [illegible] mixed, at 8.00—sixty days.
Schr Wm Jones, Manistee, mixed, at 8.00.
Schr Telegraph, Grand River, mixed, at 8.00.
Schr Live Oak, Muskegon, mixed, at 8.75.
Schr America, Oconto, mixed, at 8.75.
Schr Tempest, White Lake, mostly strips, at 8.50.
Schr Thr e Bells, Holland, half strips, at 8.50.
Schr Blue Belle, White Lake, mixed, at 8.00—sixty days.
Schr Pauline, Manistee, mixed, 8.00—sixty days.
Schr Wallin, Black River, mixed, at 8.50.
Schr Mermaid, White Lake, square timber, at 7.50.
Schr Champion, Grand River, two-thirds strips, at 9.00.
Schr Col, Glover, Manitowoc, mixed, at 4.00 and 8.00.

Besides the above we hear of two or three cargoes of Green Bay lumber being sold to arrive, at 8.00 for boards and 9.00 for strips.

SALES AT THE YARDS.—Business has been very dull in the yards. The shipments by the Canal continue to fall off, and we notice there is also a falling off in the shipments by some of the principal railroads. No great revival of the lumber trade is expected before the spring wheat crop is safe, when country dealers will probably begin to lay in stocks. The city trade continues fair; and there is an active inquiry for dry uppers, the stocks of which are now very low. There is no change in our quotations.

SHINGLES.—The receipts continue about the same, and there is no visible alterations in prices. During the week, 300,000 sawed shingles from White Lake, were sold at $2.18¾; 350,000 A shaved shingles, from Grand River, at 2.50; 71,000 mixed lot from Grand River, at 2.00; 1,000,000 A shingles from Rogue River, at 2.50.

LATH.—The supply is good, and sales of cargoes were made during the week, at $1.37½.

BREADSTUFFS.—The weather is favorable for crops and the approaching harvest. The quotation for breadstuffs show an advance over the prices current of Friday. Flour is quoted very dull, and is freely offered by holders at reduced rates.

Wheat is quiet, but for French lots there has been a speculative demand at 1d advance. Western red quoted at 8s 9d@10d; white 9s 6d@10s 9d, and southern red 9s 3d.

Corn quiet; mixed quoted at 5s 9d@6s 3d; yellow 6s 10d@6s 3d, and white 6s 6d@8s.

PROVISIONS.—The market shows a declining tendency. Lard heavy and offered at a decline. Beef heavy and quotations nominal. Pork dull, prices easier, but quotations unchanged.

PRODUCE.—Rosin dull at 4s for common. Spirits Turpentine dull at 41s. Sugar firm at a slight advance for all qualities. Coffee quiet. Rice dull.

The Latest.

LIVERPOOL, June 22.—At to-day's market wheat met with a moderate demand for consumption at an advance of about ½d per cental on prices of this day week. Flour was also more inquired for, and the turn dearer. Oats must be quoted at ½d per cental lower on Inferior, and 1d on best qualities, with a very limited sale. Indian corn attracted more attention, and, as there was little offering, buyers had to pay an advance of 3d per cental on the week; Galatz bringing 6s 4d, and Brallow 5s 3d per cental.

MORTGAGE SALE.—By an Indenture of mortgage, bearing date the twelfth day of February, A. D. 1857, executed by Reuben Taylor and Eliza Taylor, of the city of Chicago, and State of Illinois, mortgagors, to James W. Cochran and Samuel L. Baker, of same place, mortgagees, the said mortgagors to secure the payment to said mortgagees of the sum of Nineteen Thousand and Five Hundred Dollars, according to three certain Notes of even date with said mortgage for the sum of Sixty-Five Hundred Dollars each, payable in one, two and three years from date, with interest annually, duly granted, sold and conveyed unto the said mortgagees, their heirs and assigns forever, all those lots, pieces or parcels of land situated in the city of Chicago, in the County of Cook, in the State of Illinois, described as follows, to wit:—The east half of out-lot fifty-one (51), in the Canal Trustees Subdivision of Section seven (7), Township thirty-nine (39), Range fourteen (14) east, excepting from the same lots number one (1), and two (2), according to a plat, and subdivision of said east half of Block fifty-one (51), made by Reuben Taylor, and recorded in the Register's Office for Cook County on the fifth day of August, A. D. 1856, in Book (120) of Maps, Page 14, the said mortgage contains a power of sale if the said mortgagors make default in the payment of either of the said above named notes therein mentioned and was duly acknowledged and recorded in the office of the Recorder of the said County of Cook in Book 29 of Mortgages, Page 504, and was filed for such record on the thirteenth day of February, A. D. 1857, which said mortgage was afterwards, for valuable consideration duly assigned by the said James W. Cochran and Samuel L. Baker to Edmond Aiken, of said city of Chicago, together with all their title and interest in the premises therein conveyed, and the last note secured thereby, which said assignment bears date the twelfth day of November, A. D. 1858, was duly acknowledged and filed for record in the office of the Recorder of said County of Cook on the 14th day of June, A. D. 1859. Default having been made in the payment of the said sum of money and interest thereon secured to be paid by said mortgage in the sum of six thousand and five hundred dollars ($6,500.00), with the interest thereon from the 21st day of May, A. D. 1859, and unpaid on said Note and Mortgage. Therefore, notice is hereby given that by virtue of the said mortgage and the power of sale therein contained, the undersigned, assignee, will, on the 20th day of July, A. D. 1859, at 10 o'clock in the forenoon, at the Court House door, in the city of Chicago, in the County of Cook, in the State of Illinois, offer for sale and sell to the highest bidder for cash the said premises herein above described, excepting lots thirteen (13) and fourteen (14), according to a subdivision above mentioned, made by Reuben Taylor, and all the right and equity of redemption of the said mortgagors therein.
Dated June 27th, 1859. EDMOND AIKEN, Assignee.

MORTGAGE SALE.—Whereas, Thomas Lombard, George W. Pierce, and Samuel F. Rogers, of Boston, Massachusetts, executed and delivered to Jason Gurley, of the city of Chicago, County of Cook, and State of Illinois, a certain Mortgage of the following described lots and parcels of land in the Canal Trustees Subdivision of the south-east quarter of Section No. seventeen (17), in Township thirty nine (39), north of Range fourteen (14), east of the third Principal Meridian, in the County of Cook aforesaid, known and designated as Lots numbered thirty-three (33), thirty-four (34), thirty-five (35), thirty-six (36), sixty-one (61), sixty two (62), sixty-three (63), and sixty-four (64), in Block No. two (2) of said subdivision, which said mortgage bears date the first day of September, in the year of our Lord One Thousand Eight Hundred and Fifty Six, and was filed for record in the Recorder's Office of the County of Cook, and State aforesaid, on the third day of February, in the year of our Lord One Thousand Eight Hundred and Fifty-Seven, and recorded in Book twenty-nine (29) of Mortgages, at Page two hundred and twenty-one (221), of which said Mortgage was given to secure the payment of three certain promissory notes, payable to the order of Jason Gurley, executed by the said Thomas Lombard, George W. Pierce and Samuel F. Rogers, bearing even date with said mortgage, each of said notes being for the sum of sixteen hundred and sixty-six dollars and sixty-seven cents ($1,666.67), with interest at six per cent. payable annually, to be computed from the twenty-second day of May, A. D. 1856, the first of said notes maturing on the 22d of May, A. D. 1858, the second of said notes maturing on the 22d day of May, A. D. 1859, and the third of said notes maturing on the 22d day of May, A. D. 1860; and whereas it is provided in and by the terms of said mortgage that if default be made in the payment of the said promissory notes either of principal or interest on the days whereon the same shall become due and payable, the whole of said sums of money secured by the said promissory notes shall thereupon become immediately due and payable, and the said party of the second part, Jason Gurley, after publishing a notice in a newspaper printed in the city of Chicago, ten days before the day of sale, may sell the said premises and all right and equity of redemption of said Lombard, Pierce and Rogers, in manner as specified in said mortgage. And, whereas, default has been made in the payment of the two first mentioned notes, and in the payment of interest on the third. Now, therefore, I, Jason Gurley, mortgagee, hereby give notice that I will, on FRIDAY, the fifteenth day of July next, at the hour of ten o'clock in the forenoon, at the Court House door, in the city of Chicago, aforesaid, sell to the highest bidder for cash in hand, the said above described premises, and all right and equity of redemption of the said Lombard, Pierce and Rogers, mortgagors therein.

TRUSTEE'S SALE.—Whereas, on the 29th day of September, A. D. 1857, William Gray to secure the payment of a certain note of Lawson, executed a deed of assignment or trust to the undersigned, thereby assigning and conveying to him in trust all his the said Gray's interest in a contract or article of agreement executed by Ambrose Wright as vendor and said Gray as vendee, dated October 12, 1855, for the conveyance by said Wright to said Gray, of lots thirteen (13), fourteen (14) and fifteen (15), in block thirteen in Butler, Wright and Webster's Addition to Chicago, and all his the said Gray's interest in said lots. Said deed of assignment was given in trust to secure the repayment to said Lawson of any money which said Lawson might pay to the said Wright, to apply on said contract for accruing deferred payments. And whereas the said Gray has made default in the payment of said note, and whereas said Lawson has made certain payments to the said Wright to apply on said contract, and whereas there appears to be now due to said Lawson on said notes and for said advances, including interest to this date, the sum of thirteen hundred and fifty dollars.

Now therefore public notice is hereby given that I, L. C. Paine Freer, will in pursuance of the powers in the said deed of assignment contained, sell at public auction to the highest bidder for cash, all the right title and interest of said William Gray in said contract, and in the lands and premises therein described, at the north door of the Court House, in the city of Chicago, county of Cook, State of Illinois, on the 15th day of July, A. D. 1859, at ten o'clock in the forenoon of said day.

Said contract and deed of assignment was filed in the office of the Recorder of Cook County, September 29th, A. D. 1857, in book 185 of Deeds, page 271. [illegible] L. C. PAINE FREER, Trustee.

D., 1857, amounting in the aggregate to fifteen thousand dollars and five hundred and twenty-four dollars, which said notes were secured by a certain indenture by way of mortgage executed by the said Alfred F. Wurts and S. Elizabeth, his wife, of Chicago, to the said J. Marshall Paul, of Philadelphia, in the State of Pennsylvania, dated on the 19th day of August, 1857, in which it was stipulated that if default should be made in the payment of the said notes or either of them on the days respectively whereon the same should become due and payable, that then the whole sum secured by said notes should thereafter at the option of the said J. Marshall Paul the holder of the said notes, become and be immediately due and payable.

And whereas, the said mortgage and notes have been by the said J. Marshall Paul duly assigned, and made over to the undersigned. Notice is therefore hereby given, that by virtue of a power of sale in the said mortgage contained, the undersigned, as assignee of the said mortgage, will, on Friday, the fifteenth day of July next, at ten o'clock in the forenoon of that day, at the north door of the Court House of the city of Chicago, Cook County, Illinois, proceed to sell at public auction to the highest bidder, for cash, the premises described in said mortgage, and thereby mortgaged with power of sale, to secure said debt, and all interest and equity of redemption of said mortgagors and mortgagee in said premises, to wit: Lots numbered one (1) and two, (2) in block number forty-nine, (49) in Carpenter's addition to Chicago, known as Carpenter's Addition. And also lot number thirteen, (13) in block number eight (8) in the subdivision of the west half of the northwest quarter of section twenty eight (28) in township forty (40), range fourteen, (14) east of the third principal meridian, together with the right and equity of redemption of the said Alfred F. Wurts and wife therein. A deed in fee will be given to the purchaser of said real estate. Said mortgage was recorded in the Recorder's office of Cook County, in book No. 58 of mortgages, at page 124, and the assignment thereof in book 179 of Deeds, page 241.
